own words on dozens of subjects of perennial interest the book includes some almost unknown texts in which his contemporaries describe him Complete with a biographical introduction the book serves as a handy reference and a smart and lively introduction to a masterly thinker and writer Includes a rich collection of Machiavelli s most memorable words on a wide range of subjects from politics to the human condition almost 700 quotations in all Edited and introduced by one of the world s leading Machiavelli scholars Serves as a smart and lively introduction to Machiavelli s life and works Draws on the complete body of Machiavelli s writings Features a brief biography of Machiavelli a chronology of his life suggestions for further reading and an index

Amoral Politics Ben-Ami Scharfstein,2016-02-24 This is a study of how and why politics is amoral It deals especially with what the author terms Machiavellism the disregard of moral scruples for political ends that leads to the justification and use of deception and force in all aspects of political life A comparative cultural study it examines the theory and practice of politics in ancient China ancient India Renaissance Italy and modern Europe as well as tribal cultures in order to test how widespread such political amorality has been throughout history Scharfstein concludes that political or ethical theories that do not view Machiavellism as inseparable from political life are inadequate to human affairs and of doubtful relevance to politics In reaching this conclusion he explores such topics as why people readily accept political violations of truthfulness and fairness whether decisive philosophical arguments have been advanced against Machiavellism whether the use of deception in politics is in politicians own best interests and whether the prevalence of Machiavellism rules out the likelihood of a better political future

Spinoza's Authority Volume II A. Kiarina Kordela,Dimitris Vardoulakis,2017-12-28 Spinoza s political thought has been subject to a significant revival of interest in recent years As a response to difficult times students and scholars have returned to this founding figure of modern philosophy as a means to help reinterpret and rethink the political present Spinoza s Authority Volume II makes a significant contribution to this ongoing reception and utilization of Spinoza s 1670s Theologico Political and Political treatises By taking the concept of authority as an original framework this books asks How is authority related to law memory and conflict in Spinoza s political thought What are the social historical and representational processes that produce authority

and resistance And what are the conditions of effective resistance Spinoza s Authority Volume II features a roster of internationally established theorists of Spinoza s work and covers key elements of Spinoza s political philosophy *Spinoza, the Epicurean* Vardoulakis Dimitris Vardoulakis,2020-05-28 Through a radical new reading of the Theological Political Treatise Dimitris Vardoulakis argues that the major source of Spinoza s materialism is the Epicurean tradition that re emerges in modernity when manuscripts by Epicurus and Lucretius are rediscovered This reconsideration of Spinoza s political project set within a historical context lays the ground for an alternative genealogy of materialism Central to this new reading of Spinoza are the theory of practical judgment understood as the calculation of utility and its implications for a theory of democracy that is resolutely positioned against authority
