Kiss,2019-04-12 Science is something that can change every day or at least the way we view it Sometimes we look at the things all wrong But through exploration we can always learn more And to do that eight people will venture into a world unknown After a brilliant scientist goes missing a group of scientists mercenaries and explorers take it upon themselves to venture into a hidden jungle in the Yucatan Peninsula But what they find is a world of adventure a lost world where God has restored the ancient world to how he once envisioned it As they slowly unravel a mystery or two they may need to fight for their lives to not only complete their rescue but to make it back home alive Soul Federation Toshio Suzuki,2010-04-30

The basic topic of this book is to advocate the establishment of a world federation and world government and to consider the philosophy on how we can be happy As for the establishment of a world federation and world government the benefits of a world federation and world government are introduced As for the philosophy on how we can be happy some religious thoughts are introduced For example an idea which improves Einsteins theory of relativity is introduced The Basic philosophy is that we must do good if we want to be happy Our mission from God is to make a world where all people can live happily These thoughts lead to the establishment of world federation and world government *Shoe and Leather Reporter* ,1917
