[Literary Beginnings in the European Middle Ages](#) Mark Chinca, Christopher Young, 2022-08-25 How did new literatures begin in the Middle Ages and what does it mean to ask about such beginnings These are the questions this volume pursues across the regions and languages of medieval Europe from Iceland Scandinavia and Iberia through Irish Welsh English French Dutch Occitan German Italian Czech and Croatian to Medieval Greek and the East Slavonic of early Rus Focusing on vernacular scripted cultures and their complicated relationships with the established literary cultures of Latin Greek and Church Slavonic the volume s contributors describe the processes of emergence consolidation and institutionalization that make it possible to speak of a literary tradition in any given language Moreover by concentrating on beginnings the volume avoids the pitfalls of viewing earlier phenomena through the lens of later national developments the result is a heightened sense of the historical contingency of categories of

language literature and territory in the space we call Europe , **Pedagogy, Intellectuals, and Dissent in the Later Middle Ages** Rita Copeland,2001-07-26 This book is about the place of pedagogy and the role of intellectuals in medieval dissent Focusing on the medieval English heresy known as Lollardy Rita Copeland places heretical and orthodox attitudes to learning in a long historical perspective that reaches back to antiquity She shows how educational ideologies of ancient lineage left their imprint on the most sharply politicized categories of late medieval culture and how radical teachers transformed inherited ideas about classrooms and pedagogy as they brought their teaching to adult learners The pedagogical imperatives of Lollard dissent were also embodied in the work of certain public figures intellectuals whose dissident careers transformed the social category of the medieval intellectual Looking closely at the prison narratives of two Lollard preachers Copeland shows how their writings could serve as examples for their fellow dissidents and forge a new rapport between academic and non academic communities Forms of Devotion in Early English Poetry Jennifer A. Lorden,2023-11-02 Firmly establishes the importance of early affective devotion in the hybrid poetics of the earliest English poetry *From England to Bohemia* Michael Van Dussen,2012-03 The first examination of cultural exchanges between England and Bohemia after 1382 eventually leading to the suppression of heresy *Image, Text, and Religious Reform in Fifteenth-Century England* Shannon Gayk,2010-09-30 Focusing on the period between the Wycliffite critique of images and Reformation iconoclasm Shannon Gayk investigates the sometimes complementary and sometimes fraught relationship between vernacular devotional writing and the religious image She examines how a set of fifteenth century writers including Lollard authors John Lydgate Thomas Hoccleve John Capgrave and Reginald Pecock translated complex clerical debates about the pedagogical and spiritual efficacy of images and texts into vernacular settings and literary forms These authors found vernacular discourse to be a powerful medium for explaining and reforming contemporary understandings of visual experience In its survey of the function of literary images and imagination the epistemology of vision the semiotics of idols and the authority of written texts this study reveals a fifteenth century that was as much an age of religious and literary exploration experimentation and reform as it was an age of regulation **Boethius in the Middle Ages** Maarten J. F. M. Hoenen,Lodi W. Nauta,1997 The German philosophical culture of the Middle Ages is inextricable linked to the thought of Albert the Great This volume brings together 14 papers which deal with Albert s influence from the points of view of mysticism philosophy and the history of universities **Boethius in the Middle Ages** Maarten Hoenen,Nauta,2021-11-01 Boethius *Consolatio Philosophiae* is one of those exceptional works that circulated widely throughout such diverse medieval cultures as the schools and universities the court and religious houses It spawned a rich tradition of Latin commentaries and was a major force in shaping vernacular literary traditions including the works of Jean de Meun Dante and Chaucer The changing perceptions of the *Consolatio* are the subject of this collection of new essays The first section is devoted to the Latin commentary tradition William of Conches Nicholas Trevet and Pierre d Ailly The other sections explore the vernacular

traditions Italian French German English and Dutch The book underlines the interactions between the Latin and the vernacular and between literary and scholastic contexts and the focus throughout is on the intellectual and institutional background of the works discussed Rhetoric, Hermeneutics, and Translation in the Middle Ages Rita

Copeland,1995-03-16 This book has a twofold purpose First it seeks to define the place of vernacular translation within the systems of rhetoric and hermeneutics in the Middle Ages Secondly it examines the way that rhetoric and hermeneutics in the Middle Ages define their status in relation to each other as critical practices introd **Poets and Power from Chaucer to**

Wyatt Robert J. Meyer-Lee,2007-01-18 In the early fifteenth century English poets responded to a changed climate of patronage instituted by Henry IV and successor monarchs by inventing a new tradition of public and elite poetry Following Chaucer and others Hoccleve and Lydgate brought to English verse a style and subject matter writing about their King nation and themselves and their innovations influenced a continuous line of poets running through and beyond Wyatt A crucial aspect of this tradition is its development of ideas and practices associated with the role of poet laureate Robert J Meyer Lee examines the nature and significance of this tradition as it developed from the fourteenth century to Tudor times tracing its evolution from one author to the next This study illuminates the relationships between poets and political power and makes plain the tremendous impact this verse has had on the shape of English literary culture **Texts and the Self in the**

Twelfth Century Sarah Spence,1996-12-12 Texts and the Self in the Twelfth Century analyses key twelfth century Latin and vernacular texts which articulate a subjective often autobiographical stance The contention is that the self forged in medieval literature could not have come into existence without both the gap between Latinity and the vernacular and a shift in perspective towards a visual and spatial orientation This results in a self which is not an agent that will act on the outside world like the Renaissance self but rather one which inhabits a potential middle ground or space of agency explained here partly in terms of object relations theory **Sight and Spirituality in Early Netherlandish Painting** Bret L.

Rothstein,2005-06-08 Publisher Description *Making Knowledge in Early Modern Europe* Pamela H. Smith,Benjamin Schmidt,2007 Aims to bring together essays that explore how knowledge was obtained and demonstrated in Europe during an intellectually explosive four centuries when standard methods of inquiry took shape across several fields of intellectual pursuit This book looks at production and consumption of knowledge as a social process within different communities

Women's Writing from the Low Countries 1200-1875 Lia van Gemert,2010 This book provides a welcome English translation of a marvelous anthology of women s religious and secular writing stretching from the visions of the late medieval mystics through the prison testaments of sixteenth century Anabaptist martyrs to the pamphleteers and novelists of the growing urban bourgeoisie The translations and introductions demonstrate the ways that women in the Low Countries shaped the intellectual and cultural developments of their eras **Desire in Dante and the Middle Ages** Manuele Gragnolati,2017-07-05 This volume takes Dante s rich and multifaceted discourse of desire from the Vita Nova to the

Commedia as a point of departure in investigating medieval concepts of desire in all their multiplicity fragmentation and interrelation As well as offering several original contributions on this fundamental aspect of Dante s work it seeks to situate the Florentine more effectively within the broader spectrum of medieval culture and to establish greater intellectual exchange between Dante scholars and those from other disciplines The volume is also notable for its openness to diverse critical and methodological approaches In considering the extent to which modern theoretical paradigms can be used to shed light upon the Middle Ages it will interest those engaged with questions of critical theory as well as medieval culture

Parody and Festivity in Early Modern Art DavidR. Smith,2017-07-05 Dwelling on the rich interconnections between parody and festivity in humanist thought and popular culture alike the essays in this volume delve into the nature and the meanings of festive laughter as it was conceived of in early modern art The concept of carnival supplies the main thread connecting these essays Bound as festivity often is to popular culture not all the topics fit the canons of high art and some of the art is distinctly low brow and occasionally ephemeral themes include grobianism and the grotesque scatology popular proverbs with ironic twists and a wide range of comic reversals some quite profound Many hinge on ideas of the world upside down Though the chapters most often deal with Northern Renaissance and Baroque art they spill over into other countries times and cultures while maintaining the carnivalesque air suggested by the book s title
