Third Series** Library of Congress. Copyright Office, 1972 **Mound City** Patricia Cleary, 2024-06-07 Winner of the 2025 Midland Authors Award in the History category Nearly one thousand years ago Native peoples built a satellite suburb of America's great metropolis on the site that later became St Louis At its height as many as 30 000 people lived in and around present day Cahokia Illinois While the mounds around Cahokia survive today as part of a state historic site and UNESCO world heritage site the monumental earthworks that stood on the western shore of the Mississippi were razed in the 1800s But before and after they fell the mounds held an important place in St Louis history earning it the nickname Mound City For decades the city had an Indigenous reputation Tourists came to marvel at the mounds and to see tribal delegations in town for trade and diplomacy As the city grew St Louisans repurposed the mounds for a reservoir a restaurant and railroad landfill in the process destroying cultural artifacts and sacred burial sites Despite evidence to the contrary some white Americans declared the mounds natural features not built ones and cheered their leveling Others espoused far fetched theories about a lost race of Mound Builders killed by the ancestors of contemporary tribes Ignoring Indigenous people's connections to the mounds white Americans positioned themselves as the legitimate inheritors of the land and asserted that modern Native peoples were destined to vanish Such views underpinned coerced treaties and forced removals and when Indigenous peoples resisted

military action The idea of the Vanishing Indian also fueled the erasure of Indigenous peoples histories a practice that continued in the 1900s in civic celebrations that featured white St Louisans playing Indian and heritage groups claiming the mounds as part of their own history Yet Native peoples endured and in recent years have successfully begun to reclaim the sole monumental mound remaining within city limits Drawing on a wide range of sources Patricia Cleary explores the layers of St Louis s Indigenous history Along with the first in depth overview of the life death and afterlife of the mounds Mound City offers a gripping account of how Indigenous histories have shaped the city s growth landscape and civic culture

Preservation of timber in the tropics G.W. Findlay,2013-03-09 Much research has been done recently and more is now in progress to increase the effectiveness under tropical conditions of methods which have been developed in Europe for preserving timber This book attempts to bring together the results of some of these studies I have not attempted to cover the tropical zones of Central and South America as this would have extended the book beyond its limits But I am grateful to the authors who have contributed chapters dealing with the different aspects and solutions of the problems of the tropical areas of the Old World The International Research Group for Wood Preservation The I R G at its annual meetings in different countries has provided a valuable forum for cooperation in this developing field Anyone concerned with the subject would be well advised to study the publications issued by this group Their office is at Drottning Kristinas vag 47C S 11428 Stockholm Sweden Although timber is a renewable resource there is every reason why it should not be wasted through premature decay or the ravages of termites etc when effective measures for its preservation are available and if correctly applied can greatly reduce the cost of maintaining timber structures
