My Daily Horus Scope:

My Daily Horus Scope Ramona Louise Wheeler, 2005-09-01 A daily diary featuring the ancient Egyptian calendar and horoscope texts and omens designed as a matching companion to *Work Like An Egyptian A Modern Guide To Ancient Time And The Egyptian Horoscope* Each page has ample writing space for daily notes of your personal interactions with time and eternity Art work by Ramona Louise Wheeler accompanies the text identifying the divine guardians of each month Unlike most diaries the calendar dates are fixed to the ancient pattern so this volume will never go out of date You can start anywhere in the year connecting yourself to the eternal round from the first page Charlie Lennon Scott Wheeler, 2005

Here is the full story of John Lennons remarkable uncle the late singer composer Charlie Lennon told in Charlies own words and in tributes by some of those who knew him best The book provides a unique fascinating look into the Lennon family and Johns early life in his hometown of Liverpool England Charlie talks candidly about his childhood days in Liverpool his wartime service in the Royal Army his memories of John and of Johns son Julian and his life as a hometown celebrity after coming home to Liverpool in 1982 His close friend Scott Wheeler takes up the story in the 1980s chronicling his many travels with Charlie around Liverpool and Boston in the course of eight years of band tours The book includes tributes from 13 of Charlies friends and is illustrated with nearly 600 photos including many rare Lennon family pictures that have never before been published Listen to the radio interview

Walk Like an Egyptian Ramona Louise Wheeler, 2005-07-01 The calendar material in this expanded edition of *Walk Like An Egyptian* provides further insight into the mind of the ancient world a glimpse into a world in which every element of reality was a manifestation of the divine and the cosmic a time in which even the counting of days and months into years was a mystery of divine proportions The calendar of ancient Egypt is older than astrology The Egyptian calendar itself is almost forgotten yet it is the direct ancestor of the Western calendar in use today The ancient Egyptians were keenly focused on the concept of life as a journey through time and the calendar was their map In *Walk Like An Egyptian* you will find one of the world s oldest guides to self navigation in an easy to use format a daily horoscope from the dawn of history Each season month and day is listed with its ancient name together with the warnings and requirements stories and scenarios of the gods involved in the story of the year The day is divided into eight hour segments of morning afternoon and night Sacred ceremonies and ritual feasts are also listed making the calendar a complete guide to the Egyptian year a horoscope unlike any other available in the modern world The earlier editions of *Walk Like An Egyptian* brought the concepts of ancient Egyptian religion and philosophy into the context of the modern world Readers around the globe found the once obscure ideas of ancient wisdom interpreted as profound contemplations of the reality of human nature Many familiar names in the ancient pantheon were revealed in modern terms such as Osiris the divine and immortal portion of each human s soul clothed in mortal flesh Re the divine light of consciousness in the mind Horus who is the paradox of the universal nature of each soul s unique identity Isis bonding force of the soul Thoth representing the power

of human thought and intellect and more The success of *Walk Like An Egyptian* led to Wheeler's collaboration with Diana Janeen Pierce who had assembled a daily calendar of ancient Egyptian ceremonies rituals and festivals Wheeler and Pierce worked together on a translation of the lengthy and difficult Cairo Calendar Papyri one of the few surviving documents detailing the system by which Egyptians organized their daily lives Wheeler's accompanying interpretation of the Egyptian cosmos makes a lively counterpart to the horoscope clarifying the often confusing material Together Wheeler and Pierce provide a modern evaluation of how to walk like an Egyptian attuned to eternity in your daily life and guided by eternal principles

mystery and rage of ancient Egypt River God is a masterpiece from a storyteller at the height of his powers *The Dark Lord* Peter Levenda,2013-01-01 One of the most famous yet least understood manifestations of Thelemic thought has been the works of Kenneth Grant the British occultist and one time intimate of Aleister Crowley who discovered a hidden world within the primary source materials of Crowley s Aeon of Horus Using complementary texts from such disparate authors as H P Lovecraft Jack Parsons Austin Osman Spare and Charles Stansfeld Jones Frater Achad Grant formulated a system of magic that expanded upon that delineated in the rituals of the OTO a system that included elements of Tantra of Voudon and in particular that of the Schlangekraft recension of the Necronomicon all woven together in a dark tapestry of power and illumination The Dark Lord follows the themes in the writings of Kenneth Grant H P Lovecraft and the Necronomicon uncovering further meanings of the concepts of the famous writers of the Left Hand Path It is for Thelemites as well as lovers of the Lovecraft Mythos in all its forms and for those who find the rituals of classical ceremonial magic inadequate for the New Aeon Traveling through the worlds of religion literature and the occult Peter Levenda takes his readers on a deeply fascinating exploration on magic evil and The Dark Lord as he investigates one of the most neglected theses in the history of modern occultism the nature of the Typhonian Current and its relationship to Aleister Crowley s Thelema and H P Lovecraft s Necronomicon **A Guide to the First, Second and Third Egyptian Rooms** British Museum. Extraterrestrial Sands Gary Gilligan,2016-04-22 Quartz sand is anywhere and everywhere imaginable on the surface of the Earth It forms the vast sandy Sahara and Arabian deserts where dunes can reach a staggering 180 meters 600 ft in

height It makes up the world's immense sandstone deposits forms our beaches and is present in most soils around the globe The question is where did all the sand come from All scholars hold the view that the primary source of our sand lies with the weathering and erosion of granite outcrops a process that is said to take billions of years uniformitarianism But is this correct Is there anybody brave enough to challenge this seemingly impregnable bastion of geological principles

Extraterrestrial Sands does just that *Extraterrestrial Sands* dismantles the consensus model and explores the radical idea that sand is extraterrestrial in origin The theory states that the planet Mars entered into hundreds of catastrophic close encounters with earth during historical times During these encounters an incandescent molten Mars internally convulsed and ejected immeasurable quantities of vaporised rock volatiles dust and debris out into space a natural by product of planetary chaos Vast swaths of rock vapour fell to earth along with tons of other sedimentary material where it condensed out of the atmosphere as tiny quartz grains In other words it rained sand Earth has been subjected to a number of catastrophic sand and debris accretion events in the past few thousand years and the evidence is obvious for all to see It reaches us in the form of Earth's sandy deserts beaches dune fields and sandstone deposits If proven the theory laid out in *Extraterrestrial Sands* has the potential to rewrite Earth's history A fascinating read it will appeal to those with an interest in global and Martian geology

Out of the Black Land Kerry Greenwood, 2018-09-01 Eighteenth Dynasty Egypt is peaceful and prosperous under the dual rule of the Pharaohs Amenhotep III and IV until the younger Pharaoh begins to dream new and terrifying dreams Ptah hotep a young peasant boy studying to be a scribe wants to live a simple life in a Nile hut with his lover Kheperren and their dog Wolf But Amenhotep IV appoints him as Great Royal Scribe Surrounded by bitterly envious rivals and enemies how long will Ptah hotep survive The child princess Mutnodjme sees her beautiful sister Nefertiti married off to the impotent young Amenhotep But Nefertiti must bear royal children so the ladies of the court devise a shocking plan Kheperren meanwhile serves as scribe to the daring teenage General Horemheb But while the Pharaoh's shrinking army guards the Land of the Nile from enemies on every border a far greater menace impends For not content with his own devotion to one god alone the newly renamed Akhnaten plans to suppress the worship of all other gods in the Black Land His horrified court soon realise that the Pharaoh is not merely deformed but irretrievably mad and that the biggest danger to the Empire is in the royal palace itself

The Egypt Code Robert Bauval, 2025-09-12 Why did the ancients align their monuments so precisely with the stars What were the practical and symbolic reasons behind these mysterious configurations From the author of *The Orion Mystery* the best selling book that introduced the revolutionary star correlation theory about the Giza pyramids *The Egypt Code* reveals an amazing Grand Unified Plan behind the legendary temples of upper Egypt Robert Bauval one of the world's most prominent and controversial Egyptologists completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts *The Egypt Code* revisits the Pyramid Age and the Old Kingdom proposing a vast sky ground correlation for the Memphite Heliopolis region and presenting the possibility of a

grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile The central idea of the book is that the cosmic order which the ancients referred to as Maat was comprised of the observable cycles of the sun and stars in particular the star Sirius and that the changes that took place due to the precession of the equinoxes and the so called Sothic Cycle are reflected in the orientation and location of religious sites
