My Turn To Care:

Women in the Middle Elaine M. Brody, 2006-03-16 Daughters are the main caregivers to elderly disabled parents most often in their middle years and are caught in the middle of multiple competing demands on their time and energy Dr Brody revisits this phenomenon in this updated edition of her groundbreaking work *The States of Child Care* Sara Gable, 2014 This accessible up to date account of the chronic issues plaguing child care reform offers viable solutions drawn from a model state child care system in the state of North Carolina Original data illustrates the complex landscape of U S child care as well as the ambiguous relationship society has with the statistic that 64% of women with children under six are employed and in need of reliable high quality care of their young children The Liberalism of Care Shawn C. Fraistat, 2021-04-09 Attention to care in modern society has fallen out of view as an ethos of personal responsibility free markets and individualism has taken hold The Liberalism of Care argues that contemporary liberalism is suffering from a crisis of care manifest in a decaying sense of collective political responsibility for citizens well being and for the most vulnerable members of our communities Political scientist Shawn C Fraistat argues that we have lost the political language of care which prior the nineteenth century was commonly used to express these dimensions of political life To recover that language Fraistat turns to three prominent philosophers Plato Jean Jacques Rousseau and William Godwin who illuminate the varied ways caring language and caring values have structured core debates in the history of Western political thought about the proper role of government as well as the rights and responsibilities of citizens The Liberalism of Care presents a distinctive vision for our liberal politics where political communities and citizens can utilize the ethic and practices of care to face practical challenges

Worlds of Care Aaron J. Jackson, 2021-04-13 The stories of fathers caring for non verbal children and how these experiences alter their understandings of care masculinity and living a full life Vulnerable narratives of fatherhood are few and far between rarer still is an ethnography that delves into the practical and emotional realities of intensive caregiving Grounded in the intimate everyday lives of men caring for children with major physical and intellectual disabilities Worlds of Care undertakes an exploration of how men shape their identities in the context of caregiving Anthropologist Aaron J Jackson fuses ethnographic research and creative nonfiction to offer an evocative account of what is required for men to create habitable worlds and find some kind of normal when their circumstances are anything but Combining stories from his fieldwork in North America with reflections on his own experience caring for his severely disabled son Jackson argues that care has the potential to transform our understanding of who we are and how we relate to others Interpreting and Responding to Classroom Behaviors Michael O. Weiner, Les Paul Gallo-Silver, Tal D. Re-Authoring Life Narratives After Trauma: A Holistic Narrative Model of Care Charles B. Manda, 2019-12-12 Re-authoring Life Narratives after Trauma is an interdisciplinary specialist resource for traumatic stress researchers practitioners and frontline workers who focus their research and work on communities from diverse religious backgrounds that are confronted with trauma death illness and other existential crises This book aims to argue that the biopsychosocial approach is limited in scope when it comes to reaching a holistic model of assessing and treating individuals and communities that are exposed to trauma The holistic model must integrate an understanding of and respect for the many forms of religion and spirituality that clients might have Pargament 2011 It will not only bring a spiritual perspective into the psychotherapeutic dialogue but it will also assist in dealing with the different demands in pastoral ministry as related to clinical and post-traumatic settings The book makes several contributions to scholarship in the disciplines of although not limited to traumatic stress studies pastoral care and counselling psychology and psychiatry Firstly the book brings spirituality into the psychotherapeutic dialogue traditionally religious and spiritual topics have not been a welcome part of the psychotherapeutic dialogue Secondly it underscores the significance of documenting

literary narratives as a means of healing trauma writing about our traumas enables us to express things that cannot be conveyed in words and to bring to light what has been suppressed and imagine new possibilities of living meaningfully in a changed world Thirdly it proposes an extension to the five stage model of trauma and recovery coined by Judith Herman
