

“We’ve been together, and we’ve been apart. There have been miles between us and even hours in some cases, but we’ve always stayed friends. No matter what obstacles have been thrown in our path or how many other people have tried to tear our friendship in two, we’ve stood the test of time. Most people aren’t lucky enough to have such a strong friendship in their lifetimes, but I know how lucky I am to call you my best friend.”

Justice as Friendship Seow Hon Tan, 2016-03-09 This book explores the question of justification of law It examines some perennial jurisprudential debates and suggests that law must find its justification in morality Drawing upon the Aristotelian inspiration that friends have no need for justice in ideal friendship we behave justly Seow Hon Tan develops a theory of law based on the universal phenomenon of friendship Friendships and legal relations attract rights and obligations by virtue of the manner in which parties are situated Friendship teaches us that how parties are situated gives rise to legitimate expectations it attests to the intrinsic worth of each person The methodology for deciphering norms within and moral lessons from friendship can be transposed to law resulting in an inter subjectively agreeable and rich conception of justice In determining the content of legal rights and obligations we can and should draw upon such determination in friendship Justice as Friendship aims to provide a vision for law's development and invites the practitioner to advance its central claims in their area of expertise In dealing with selected legal doctrines the book draws upon illustrative cases from the United States the United Kingdom and the Commonwealth The book traverses the fields of jurisprudence philosophy ethics political theory contract law and tort law

Friend v. Friend Ethan J. Leib, 2011-01-07 Friendship is one of our most important social institutions It is not only the salve for personal loneliness and isolation it is the glue that binds society together Yet for a host of reasons longer hours at work the Internet suburban sprawl many have argued that friendship is on the decline in contemporary America In social surveys researchers have found that Americans on average have fewer friends today than in times past In Friend v Friend Ethan J Leib takes stock of this most ancient of social institutions and its ongoing transformations and contends that it could benefit from better and more sensitive public policies Leib shows that the law has not kept up with changes in our society it sanctifies traditional family structures but has no thoughtful approach to other aspects of our private lives Leib contrasts our excessive legal sensitivity to marriage and

families with the lack of legal attention to friendship and shows why more legal attention to friendship could actually improve our public institutions and our civil society He offers a number of practical proposals that can support new patterns of interpersonal affinity without making friendship an onerous legal burden An elegantly written and highly original account of the changing nature of friendship Friend v Friend upends the conventional wisdom that law and friendship are inimical and shows how we can strengthen both by seeing them as mutually reinforcing **Notes and Queries** William Henry Egle,1895
