Online Visit To Asia:

The Routledge Handbook of Tourism in Asia C. Michael Hall, Stephen J. Page, 2016-09-13 Asia is regarded as the fastest growing area for international and domestic tourism in the world today and over the next 20 years. Given the economic, social and environmental importance of tourism in the region, there is a need for a comprehensive and readable overview of the critical debates and controversies in tourism in the region and the major factors that are affecting tourism development both now and in the foreseeable future. This Handbook provides a contemporary survey of the region and its continued growth and development as a key destination and generator of tourism, which is marked by a high proportion of intra-regional travel. The book is divided into five sections. This first section provides an introduction to the region and context to the nationally focused chapters. The next three sections are then broadly based on the three UNWTO Asian regions: South East Asia, South and Central Asia, and East and North East Asia, providing readers with a valuable snapshot of tourism at various scales and from various approaches and positions. The concluding section considers future prospects for tourism in Asia. The handbook is interdisciplinary in coverage and is also international in scope through its authorship and content. It presents a range of perspectives and understanding of the processes and forces that are shaping tourism in this fascinating and dynamic region that is one of the focal points of global tourism. This is essential reading for students, researchers and academics interested in tourism in the growth region of Asia now and in the future. *Strategic Partnerships in Asia* Vidya Nadkarni, 2010-01-21 Addresses the strategies pursued by potential challengers to American global preeminence through an examination of the nature and implications of the increasing interaction among three secondary powers: China, Russia and India. Technology Application in Tourism: Fairs, Festivals and Events in Asia Azizul Hassan, 2022-03-30 It is an unconditional reality that the tourism industry in Asia is becoming exposed to innovative technologies more than ever before. This book reports the latest research in the application of innovative technology to the tourism industry, covering the perspectives, innovativeness, theories, issues, complexities, opportunities and challenges affecting tourism in Asia. A blend of comprehensive and extensive efforts by the contributors and editors, it is designed especially to cover technology applications in tourism fairs, festivals and events in Asia. The application and practice of technologies in tourism, including the relevant niches of fairs, festivals and events, are also covered with a focus on the importance of technology in tourism. This book highlights, in a comprehensive manner, technologies that are impacting the tourism industry in Asia, as well as the constraints it is facing. It deals with distinct topics such as tourism promotion, technology-driven sustainable tourism development, social media accessibility and so on to cover fairs, festivals and events. This book is a significant contribution towards the very limited knowledge in this identified research area, with examples from selected Asian countries. This book is designed to accommodate both qualitative and quantitative research, linking theory and practice. This book has a clear focus on outlining the research issues. Each chapter of the book highlights a methodology that was used with rationale for its use. This book

addresses a number of revisions that unify the theme or framework to integrate the chapters Copyright Law, Digital Content and the Internet in the Asia-Pacific Brian Fitzgerald, Fuping Gao, Damien O'Brien, Sampung Xiaoxiang Shi, 2008-04-01 Copyright law digital content and the Internet in the Asia Pacific provides a unique insight into the key issues facing copyright law and digital content policy in a networked information world
