Ordinary Daylight Portrait Of An Artist Going Blind:

Ordinary Daylight Andrew Potok, 2003 Andrew Potok is an intense vigorous sensual man and a gifted painter Then passing forty he rapidly begins to go blind from an inherited eye disease retinitis pigmentosa Depressed and angry he rages at the losses that are eradicating his life as an artist his sources of pleasure his competence as a man He hates himself for becoming blind But as he will ultimately discover and as this remarkable memoir recounts it is not the end of the world It is the beginning Ordinary Daylight This the story of Potok s remarkable odyssey out of despair He attempts to come to terms with his condition learning skills for the newly blind dealing with freakish encounters with the medical establishment going to London for a promised cure through a bizarre and painful therapy of bee stings He wrestles with the anguish of knowing that his daughter has inherited the same disease that is stealing his own eyesight And then as he edges ever closer to complete blindness there comes the day when he recognizes that the exhilaration he once found in the mix of paint and canvas hand and eye he has begun to find in words By turns fierce blunt sexy and uproariously funny Andrew Potok s memoir of his journey is as shatteringly frank as it is triumphant

Self-esteem and Adjusting with Blindness Dean W. Tuttle, Naomi R. Tuttle, 2004 This new and expanded Third Edition analyzes blindness within the context of two overlapping theoretical constructs the development of self esteem and the process of adjusting to social and or physical trauma The book is divided into four sections The first section provides an overview of blindness and the essential background for subsequent discussions Section II explores the general theoretical model for the development of self esteem common to all persons and analyzes the impact that blindness imposes upon this model Section III explores the process of coping with social and physical traumas or crises Section IV is addressed primarily to members of the blind person s support team and provides suggestions for creating a climate for optimum development Factors that may influence the adjustment process descriptions of external and internal sources of self esteem activities for

stimulating affective growth and guidelines for professionals who work with the blind are included Personal impacts and psychosocial implications of blindness are discussed in depth and illustrated with biographical and autobiographical statements by more than 50 blind men and women This book will serve as an excellent review and refresher for experienced practitioners and administrators working in the field of blindness Professionals in education social work vocational counseling rehabilitation recreation therapy ophthalmology and optometry will find this comprehensive resource to be an invaluable addition to their libraries

Undaunted by Blindness, 2nd Edition Clifford E. Olstrom, 2012-07-10 The purpose of this book is to provide concise biographical information about 400 notable blind persons The people in this volume are but a small sample of many thousands of notable blind persons in history Most of the information about their lives comes from secondary sources Where feasible some of the subject's own words were used

Toward an Aesthetics of Blindness David Feeney, 2007 Blindness has always fascinated those who can see Although modern imaginative portrayals of the sightless experience are increasingly positive the affirmative elements of these renderings are inevitably tempered and problematized by the visual predilections of the artists undertaking them This book explores a variety of the discontinuities between depictions of the sightless experience of beauty by sighted artists and the lived aesthetic experiences of blind people It does so by pressing a radical interdisciplinary reinterpretation of celebrated dramatic portrayals of blindness into service as a tool with which to probe the boundaries of the capacities of the sighted imagination while exploring the sensory detriment of our visually fixated notions of beauty Works by J M Synge W B Yeats and Brian Friel are explored as a means of crafting a workable and innovative medium of theoretical and experiential exchange between the disciplines of literature aesthetics and disability studies In addition to appraising previously unexamined aspects of the work of three of Ireland's most celebrated modern dramatists this book considers the consequences for blind people of the exclusionary and prohibitive elements of traditional aesthetic theory and art education The insights yielded will be of value to those with an interest in modern literature differential aesthetics visual culture perception and the experience of blindness

There Plant Eyes M. Leona Godin, 2021-06-01 From Homer to Helen Keller from Dune to Stevie Wonder from the invention of braille to the science of echolocation M Leona Godin explores the fascinating history of blindness interweaving it with her own story of gradually losing her sight A thought provoking mixture of criticism memoir and advocacy The New Yorker *There Plant Eyes* probes the ways in which blindness has shaped our ocularcentric culture challenging deeply ingrained ideas about what it means to be blind For millennia blindness has been used to signify such things as thoughtlessness blind faith irrationality blind rage and unconsciousness blind evolution But at the same time blind people have been othered as the recipients of special powers as compensation for lost sight from the poetic gifts of John Milton to the heightened senses of the comic book hero Daredevil Godin who began losing her vision at age ten illuminates the often surprising history of both the condition of blindness and the myths and ideas that have grown up around it over the course of generations She combines an analysis of

blindness in art and culture from King Lear to Star Wars with a study of the science of blindness and key developments in accessibility the white cane embossed printing digital technology to paint a vivid personal and cultural history A genre defying work *There Plant Eyes* reveals just how essential blindness and vision are to humanity's understanding of itself and the world

Seeing with the Hands Mark Paterson, 2017-12-11 This book seeks to answer why there has been a persistent fascination by the sighted including philosophers poets and the public in what the blind see

Sight Unseen Georgina Kleege, 1999-03-11 This elegantly written book offers an unexpected and unprecedented account of blindness and sight Legally blind since the age of eleven Georgina Kleege draws on her experiences to offer a detailed testimony of visual impairment both her own view of the world and the world's view of the blind I hope to turn the reader's gaze outward to say not only Here's what I see but also Here's what you see to show both what's unique and what's universal Kleege writes Kleege describes the negative social status of the blind analyzes stereotypes of the blind that have been perpetuated by movies and discusses how blindness has been portrayed in literature She vividly conveys the visual experience of someone with severely impaired sight and explains what she can see and what she cannot and how her inability to achieve eye contact in a society that prizes that form of connection has affected her Finally she tells of the various ways she reads and the freedom she felt when she stopped concealing her blindness and acquired skills such as reading braille as part of a new blind identity Without sentimentality or cliché Kleege offers us the opportunity to imagine life without sight

Second Sight Robert V. Hine, 1993 *Second Sight* has meaning for all of us whether we see well or not well or not at all Warm subtle percipient with strong feelings lightly expressed August Fruge
