Primary Prevention of Psychopathology, 1977 **Sexuality Counseling** Kay Frances Schepp, 2013-08-21 First published in 1986 Sex education is a necessary component of sexuality counseling A practitioner needs to be a sensitive effective educator in order to help people remedy sex related problems and prevent future ones This program is about professional counseling and assumes that the reader has training or intends to obtain it in an established helping profession

Promoting Sexual Responsibility Eva Marx, Vicki Harrison, Kandra Strauss Riggs, 2005 **The Surgeon General's Call to Action to Promote Sexual Health and Responsible Sexual Behavior** United States. helping professions as well as by practitioners and researchers in the field Primary Prevention Practices offers step by step procedures on how to use more than 50 techniques of prevention practice *Human Sexuality* Vern L. Bullough, Bonnie Bullough, 2014-01-14 First Published in 1994 The purpose of an encyclopedia is to gather in one place information that

Exploring/Teaching the Psychology of Women Michele A. Paludi, 1990-03-16 The first of its kind this manual presents educational approaches and processes which reflect feminist principles for teachers and leaders of courses and workshops in

the psychology of women Sample syllabi outlines references lists of audio visual material organizations discussion questions and experiential exercises reflect the content areas typically covered in these courses achievement sexuality health adjustment psychotherapy communication victimization methodology life style choices work and development Sexuality and Medicine E.E. Shelp,2012-12-06 It may be unnecessary to some to publish a text on sexuality in 1986 since the popular press speaks of the sexual revolution as if it were over and was possibly a mistake Some people characterize society as too sexually obsessed and there is an undercurrent of desire for a return to a supposedly simpler and happier time when sex was not openly discussed displayed taught or even presumedly contemplated Indeed we are experiencing something of a backlash against open sexuality and sexual liberation For example during the 60s and 70s tolerance of homosexual persons and homosexuality increased Of late there has been a conservative backlash against gay rights laws Sexual intercourse before marriage which had been considered healthy and good has been of late characterized as promiscuous In fact numerous articles have appeared about the growing popularity of sexual abstinence There is a renewed vigor in the fight against sex education in the schools and an anti pornography battle being waged by those on the right and those on the left who organize under the guise of such worthy goals as deterring child abuse and rape but who are basically uncomfortable with diverse expressions of sexuality One would hope that such trends and the ignorance about sex and sexuality that they reflect would not touch medical professionals That Dr **Poppa Psychology** Vicky Phares,1999-02-28 Many people seem to be searching for answers to help explain their past understand their current way of being and create a happier more satisfying future It is the current trend to blame mothers for such emotional problems Poppa Psychology calls into question this habit of blaming mothers and focuses instead on the father child relationship Regardless of whether the father is present or absent his actions will have a direct influence on the child's development Fathers have received a great deal of media attention lately but the main focus has been on their absence Poppa Psychology deals with the psychological ramifications of the father child relationship regardless of whether the fathers are present or absent Specifically it highlights factors that are related to maladjustment in children and provides suggestions for raising psychologically healthy children *Nurturing An Endangered Generation* Rosemary Thompson,2013-08-21 The statistics are pretty grim the young people of the US face an ever increasing tide of poverty alcohol and drug abuse violence suicide and family dysfunction However society's response has been slow Too many young people do not receive consistent positive and realistic validation of themselves from the adults on whom they depend The problems facing today's youth demonstrate the critical need for responsible adults to establish close helping relationships with our young people This means not only helping them achieve academically but also teaching them skills such as assertiveness decision making conflict resolution impulse control anger management empathy sensitivity and tolerance of difference This book goes beyond the stilted rhetoric on the problems of youth and the dilemma for society by outlining specific treatment intervention and prevention strategies that address the full spectrum of

dysfunctional behavior It introduces structured intervention strategies for school and community collaboration with an emphasis on remediation and treatment Educators and helping professionals will find counseling strategies and psychoeducational techniques that focus on primary prevention These primary prevention strategies are supported by an understanding of critical social emotional and cognitive skills Each chapter introduces the latest demographic data and the factors that make children and adolescents vulnerable to self defeating or self destructive behaviors and then counteracts these factors with structured intervention and prevention

Attorney General's Commission on Pornography, Final Report United States. Attorney General's Commission on Pornography,1986 Selective Exposure To Communication Dolf Zillmann,Jennings Bryant,2013-07-04 First published in 1985 Research into what is usually referred to as mass communication has concentrated on the societal impact of the media The ways in which these media influence people and affect their behavior have been at issue For the most part undesirable effects were pondered and documented Only a few desirable effects received similar attention and scrutiny The research preoccupation with impact has been so pronounced that comparatively speaking next to no attention has been paid to questions such as why people enjoy whatever they elect to watch or hear and more fundamentally why they elect to watch or hear in the first place whatever it is that they elect to watch or hear Without a symposium on research into selective exposure to informative and entertaining messages nor a publication that brought together the recent research in this area this volume was put together in an effort to end this dilemma and to put selective exposure research on the map as a significant research venture

Human Services and the Media Edward Allan Brawley,1995 This practical guide demonstrates how to work with newspapers magazines radio and television to promote social programs and to shape public policy It includes numerous examples of how cooperative efforts with the media have improved the public s understanding of the helping profession educated the community about social problems and spread preventive messages An informed and supportive public at large is critical to the success of programs promoting health and mental health and the mass media are the most powerful means of reaching the public Yet few human services professionals know how to tap into this power

Religion and Sexual Health: R.M. Green,2013-03-14 Religious beliefs and attitudes have long been recognized as playing an important role in sexual functioning but the relationship between religion and sexual behavior has rarely been studied in a comprehensive way The essays in this volume bring the views of sex counsellors therapists theologians and bioethicists to bear on the relationship between religion and sexuality A major theme emerging from these essays is that religion and counselling need to learn from one another Religious traditions at the popular or theological levels are often marked by ignorance and misinformation about sexuality and can benefit by the insights of those who work closely with patients in medical and counselling settings Counsellors in turn need to develop a sensitivity to past and present religious attitudes toward sexuality in order to assist their patients achieve sexual health
