Staff,Staff Bowker, Ed,2004 **Understanding Death as Life's Paradox** Brayton Polka,2019-04-30 This book focuses on death as life's paradox in order to test to put on trial what it means for us human beings to exist No one of us chooses to be born Yet having been born we must choose to have been born to live to exist To exist is to choose to exist To choose to exist is to live with our choices This text argues that death is the limit of life that we can live freely and lovingly at once justly and compassionately solely within the limit of death It shows that we can develop a comprehensive conception of life and also of death solely insofar as we learn to overcome the dualistic opposition between philosophy and theology that continues today to falsify our understanding of not only the secular but also the sacred **The New Age in the Modern West** Nicholas

Campion,2015-11-19 New Age culture is generally regarded as a modern manifestation of Western millenarianism a concept built around the expectation of an imminent historical crisis followed by the inauguration of a golden age which occupies a key place in the history of Western ideas The New Age in the Modern West argues that New Age culture is part of a family of ideas including utopianism which construct alternative futures and drive revolutionary change Nicholas Campion traces New

Age ideas back to ancient cosmology and questions the concepts of the Enlightenment and the theory of progress He considers the contributions of the key figures of the 18th century the legacy of the astronomer Isaac Newton and the Swedish visionary Emanuel Swedenborg as well as the theosophist H P Blavatsky the psychologist C G Jung and the writer and artist Jose Arguelles He also pays particular attention to the beat writers of the 1950s the counterculture of the 1960s concepts of the Aquarian Age and prophecies of the end of the Maya Calendar in 2012 Lastly he examines neoconservatism as both a reaction against the 1960s and as a utopian phenomenon The New Age in the Modern West is an important book for anyone interested in countercultural and revolutionary ideas in the modern West **Masks, Transformation, and Paradox A.**

David Napier,1986 Masks are found world wide in connection with seasonal festivals rites of passage and curative ceremonies They provide a means of investigating the paradoxical problems that appearances pose in the experience of transitional states In this far reaching work A David Napier studies mask iconography and the role played by masks in the realization of change The masks of preclassical Greece in particular those of the Satyr and the Gorgon provide his starting point A comparison of Greek to Eastern and especially Indian models follows and the book concludes with an examination of the interpretation of Hindu ideas in Bali that demonstrates the importance of ambivalence in mask iconography **The**
