Transparent Simulacra Robert C. Spires, 1988 The development of basic textual strategies in Spanish fiction from 1902 to 1926 is the focus of this study Challenging traditional views of the relationships between the literature produced by the Generation of 1898 and the Spanish vanguard movement Spires traces through analyses of select works a process of evolution beginning at the turn of the century and continuing into the 1920s Spires demonstrates how the somewhat tentative strategies of the first decade became more daring in the second As opposed to the extant historical autobiographical and thematic surveys of this period *Transparent Simulacra* features structuralist and post structuralist readings of fiction by Baroja Azorín Unamuno Pérez de Ayala Gómez de Serna Jarnés and Salinas These approaches offer not only revisionist views of a literary period but also revisionist readings of some of Spain's best known fiction
