What Kind of a Thing Is a Middle English Lyric? Cristina Maria Cervone, Nicholas Watson, 2022-08-30 What Kind of a Thing Is a Middle English Lyric considers issues pertaining to a corpus of several hundred short poems written in Middle English between the twelfth and early fifteenth centuries The chapters draw on perspectives from varied disciplines including literary criticism musicology art history and cognitive science Since the early 1900s the poems have been categorized as lyrics the term now used for most kinds of short poetry yet neither the difficulties nor the promise of this treatment have received enough attention In one way the book argues considering these poems to be lyrics obscures much of what is interesting about them Since the nineteenth century lyrics have been thought of as subjective and best read without reference to cultural context yet nonetheless they are taken to form a distinct literary tradition Since Middle English short poems are often communal and usually spoken sung and or danced this lyric template is not a good fit In another way however the very differences between these poems and the later ones on which current debates about the lyric still focus

suggest they have much to offer those debates and vice versa As its title suggests this book thus goes back to the basics asking fundamental questions about what these poems are how they function formally and culturally how they are and are not related to other bodies of short poetry and how they might illuminate and be illuminated by contemporary lyric scholarship Eleven chapters by medievalists and two responses by modernists all in careful conversation with one another reflect on these questions and suggest very different answers The editors introduction synthesizes these answers by suggesting that these poems can most usefully be read as a kind of play in several senses of that word The book ends with eight new Middle English lyrics by seven contemporary poets *The Middle English Lyric and Short Poem* Rosemary Greentree,2001 This Bibliography assembles annotation of collections and criticism of lyrics of religious and secular love carols and songs and rhymes of everyday life *One Hundred Middle English Lyrics* Robert David Stevick,1994 Stevick s classic work remains the only text of its kind aimed at fostering the linguistic competence necessary to understand its poems in Middle English The wide range of lyric poems in the book are normalized to a Chaucerian dialect The introduction has been revised to take into account the scholarship and criticism published since the first edition appeared in 1964 It gives the background for the poetry explains how and why the texts are normalized and reviews significant critical scholarly studies of the works Included is a section on morphology and grammar that introduces students to the language of the lyrics and a section on the evolving meter of Middle English A fine piece of work Learned wide ranging and judicious John B Friedman author of *The Monstrous Races in Medieval Art and Thought* An impressive collection Stevick s decision to normalize the texts makes it highly accessible Ralph Hanna III University of California Riverside **The Earliest Middle English Lyrics, 1150-1325** Stuart Hugh Louis Degginger,1953 **Chaucer and Middle English Studies** Beryl Rowland,2019-09-18 Originally published in 1974 The thirty six essays of this book were written and assembled in hour of an internationally recognised scholar of medieval literature Written by a diverse range of contributors the chapters cover not only various studies of aspects of Chaucer s poetry but also some other medieval authors and investigations about the period particularly referencing carols and hymns [Reader's Guide to Literature in English](#) Mark Hawkins-Dady,2012-12-06 Reader s Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study [An Introduction to Medieval English Literature](#) Anna Baldwin,2015-11-15 This is a comprehensive guide to a literary period characterized by great variety and imagination and vividly alert to the social transformations overtaking society Spanning almost two centuries it introduces the reader to a diverse range of authors writing for a fast developing readership of both men and women Each chapter focuses on a group of genres primarily associated with a particular social class from the Drama and Saints Lives accessible to the illiterate to the sophisticated Romances of Love savoured by the aristocracy and the Court

Lively historical narratives place each group of texts in their social political and cultural contexts Significant or typical texts are given more detailed analysis that includes critical issues and questions to guide the reader s own approach and each section is supported by a detailed bibliography of further reading *English Studies Today.
