Secularism And The Arab World:

Secularism in the Arab World Aziz al-Azmeh, 2020-03-18 This book is a translation of Aziz al Azmeh's seminal work *Al Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992. Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World, it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social, political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism. The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multi-faceted and objective secularising process has been underway in the Arab world since the 1850s. The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation. The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation. The book follows these themes into the close of the 20th century marked with the rise of Islamism. A preface to the English translation takes a retrospective look at the theme from the vantage point of social, political and intellectual issues of relevance today.

Islam and Secularism in the Middle East Azzam Tamimi, John L. Esposito, 2000-10 Western civilization tends to view secularism as a positive achievement. From this perspective, benefits of secularizing trends include the separation of church and state, the rule of law and freedom from organized religion. In the Arab Middle East, however,

Islamist intellectuals increasingly cite Western inspired secularism as the source of the region's social dislocation and political instability. While secularism in the West led to the spread of democratic values in the Muslim world it has been associated with dictatorship, the violation of human rights and the abrogation of civil liberties. Islam and Secularism in the Middle East examines the origins and growth of the movement to abolish the secularizing reforms of the past century by creating a political order guided by Shariah law. Contributors explain the Islamic rejection of secularism as a failed Western Christian ideal and also discuss how secularization was pioneered by those who thought Muslims could only advance politically by emulating Western practices including the renunciation of religion.

Secularism and the Arab World Nāzik Sābā Yārid, 2002. This illustrates how writers both Christian and Muslim took a secular stand not only in their writings on the nature of government, nationalism and the socio-economic system but also when addressing issues such as morality and religion in relation to society, education, women's rights, language and literature, science and freedom of thought and expression.

Narratives of Arab Secularism Youssef M. Choueiri, 2022-11-16 This book offers a new interpretation of the rich narratives of Arab secularism contending that secularism as a set of ideas and a social movement is destined to loom large on the political and legal horizon of most Arab states Youssef M Choueiri provides a study of three moments in the development of secularism in the Arab World the Machiavellian the Alfierian and the Gramscian It is within such a scope that secularism in its interaction with state building projects women's emancipation and religion is treated as an intellectual current and a discursive entity embedded in the political process of its diverse societies Through the chapters Choueiri demonstrates how secularism occupies a pivotal presence in the religious and political life of the Arab world exploring such interrelated configurations as indigenous contributions diverse reforms and the impact of Western states He concludes that secularism has become a moral prerequisite and a required vehicle in creating the necessary conditions for the success of democracy in the Middle East *Narratives of Arab Secularism* tackles the complexity and contemporary ramifications of the subject in a way that no previous single study has been able to It will be relevant to both students and academics dealing with topics related to the Middle East including religion politics anthropology and history Chapter 6 of this book is freely available as a

The Politics of Secularism in International Relations Elizabeth Shakman Hurd, 2009-01-10 Conflicts involving religion have returned to the forefront of international relations And yet political scientists and policymakers have continued to assume that religion has long been privatized in the West This secularist assumption ignores the contestation surrounding the category of the secular in international politics The Politics of Secularism in International Relations shows why this thinking is flawed and provides a powerful alternative Elizabeth Shakman Hurd argues that secularist divisions between religion and politics are not fixed as commonly assumed but socially and historically constructed Examining the philosophical and historical legacy of the secularist traditions that shape European and American approaches to global politics she shows why this matters for contemporary international relations and in particular for two critical relationships the United States and Iran and the European Union and Turkey The Politics of Secularism in International Relations develops a new approach to religion and international relations that challenges realist liberal and constructivist assumptions that religion has been excluded from politics in the West The first book to consider secularism as a form of political authority in its own right it describes two forms of secularism and their far reaching global consequences **Secularization and the World Religions** Klaus Wiegandt, Hans Joas, 2009-01-01 This volume concerns itself with the connections between religions and the social world and with the extent limits and future of secularization Dealing with the major religious traditions and their explicit or implicit ideas about the individual social and political order as well as offering an overview of the religious situation in important geographical areas *Secularization and the World Religions* analyzes the legal organization of the relationship between state and religion as well as the role of the natural sciences in a global perspective Contributors include such
