Security Challenges for Southeast Asia After the Cold War Robert John O'Neill, 1992 Excerpt We at the end of the Cold war can also draw some lessons from that experience We can take encouragement from the UN Secretary General Boutros Ghali s blueprint to make the UN a more effective global security instrument But the UN cannot do it all There are vital supporting roles to be played by regional and sub regional organizations in building a viable world order within the current UN framework I must emphasize the contribution which these organizations can make to security not only in their own neighbourhoods but also globally though putting forward their own ideas on this subject in the international debate ASEAN should do this with confidence bearing in mind its successful record of solving the non Cold War problems of state development of the post 1945 period Military Modernisation in Southeast Asia after the Cold War Shang-Su

Hard Choices Donald K Emmerson, 2003-08-01 The region s most powerful organization ASEAN is being challenged to ensure security and encourage democracy while simultaneously reinventing itself as a model of Asian regionalism Should ASEAN s leaders defend a member country s citizens against state predation for the sake of justice and risk splitting ASEAN itself Or should regional leaders privilege state security over human security for the sake of order and risk being known as a dictators club Should ASEAN isolate or tolerate the junta in Myanmar Is democracy

international law How is the global security environment shaping international law and how is international law in turn influencing other normative frameworks The Oxford Handbook of the International Law of Global Security provides a groundbreaking overview of the relationship between international law and global security It constitutes a comprehensive and systematic mapping of the various sub fields of international law dealing with global security challenges and offers authoritative guidance on key trends and debates around the relationship between public international law and global security governance This Handbook highlights the central role of public international law in an effective global security architecture and in doing so addresses some of the most pressing legal and policy challenges of our time The Handbook features original contributions by leading scholars and practitioners from a wide range of professional and disciplinary backgrounds reflecting the fluidity of the concept of global security and the diversity of scholarship in this area Security Politics in the Asia-Pacific William T. Tow, 2009-10-15 Asia is experiencing major changes in its security relations This book brings together respected experts to assess both the theoretical and empirical dimensions of the Asian security debate Building on the latest research on Asia's regional security politics it focuses on the regional global nexus as a way to understand the dynamics of Asian security politics and its intersection with global security Contributors to the volume offer diverse but complementary perspectives on which issues and factors are most important in explaining how security politics in Asia can be interpreted at both the regional and global levels of analysis Issues addressed include power balancing and alliances governance and democracy maritime and energy security the relationship between economics and security human security terrorism nuclear non proliferation climate change and pandemics This work will serve as a standard reference on the evolution of key issues in Asian security *Network Power* Peter J. Katzenstein, Takashi Shiraishi, 2018-09-05 This book examines regional dynamics in contemporary east and southeast Asia scrutinizing the effects of Japanese dominance on the politics economics and cultures of the area The contributors ask whether Japan has now attained through sheer economic power and its political and cultural consequences the predominance it once sought by overtly military means The discussion is framed by the profound changes of the past decade Since the end of the Cold War and the breakup of the Soviet Union regional dynamics increasingly shape international and national developments This volume places Japan's role in Asian regionalism in a broader comparative perspective with European regionalism and the role Germany plays It assesses the competitive logics of continental and coastal primacy in China In starkest form the question addressed is whether Chinese or Japanese domination of the Asian region is more likely Between a neo mercantilist emphasis on the world's movement toward relatively closed regional blocs and an opposing liberal view that global markets are creating convergent pressures across all national boundaries and regional divides this book takes a middle position Asian regionalism is identified by two intersecting developments Japanese economic penetration of Asian supplier networks through a system of production alliances and the emergence of a pan Pacific trading region that includes both Asia and North America The contributors emphasize factors that

are creating an Asia marked by multiple centers of influence including China and the United States **Regionalization in East Asia-Pacific?** Joakim Öjendal, 1997 **India & Southeast Asia** Sudhir Devare, 2006 In the context of the geopolitical situation in the Asia Pacific in the post September 11 period the security dimension between India and Southeast Asia cannot be overemphasized With the continued U S preponderance in the region and China's phenomenal rise the countries of Southeast Asia and India have an opportunity to evolve a co-operative relationship not only with one another but also with the major powers of the region This book examines the areas of comprehensive security and the growing understanding between India and Southeast Asia where there is less divergence and greater convergence The author argues that India Southeast Asia security convergence is not and should not be aimed at any particular country On an optimistic note he concludes that such convergence will contribute to creating harmony among the major powers of Asia to make the twenty first century the Asian century
