Security Studies For The 1990s:

Security Studies for the 1990s Richard H. Shultz, Roy Godson, Ted Greenwood, 1993 The United States is grappling with a new security framework to replace the structure of the Cold War era American policymakers face a host of challenges including regional conflicts ethnic tensions and weapons proliferation that commanded little attention in the past And tomorrow is likely to bring new concerns barely on today's horizon Despite these changes the study of national security remains largely a creature of the Cold War The security studies discipline needs to be overhauled But how should it be revised so that tomorrow's citizens and experts are equipped to understand and help manage new challenges One option is to downgrade security studies and divert educational resources elsewhere Another is to redefine the subject to include the study of an all encompassing list of international problems The third choice is to retain basic definitions concepts and subjects while also making significant adjustments Security Studies for the 1990s addresses all three options This book is the first to reexamine security studies in the post Cold War era Scholars and directors from leading security studies programs representing a cross section of viewpoints on foreign affairs discuss what new material needs to be taught and which courses and concepts should be recast Each chapter provides an in-depth review of a major security studies course proposing needed changes and a model syllabus Subjects include intelligence policy global environmental problems the causes and termination of wars and collective security A chapter on the teaching of ethics a subject often neglected in the past is also featured BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Challenges to American**

National Security in the 1990s M. Nacht, A. Nichols, G.H. Quester, J.J. Weltman, 2012-12-06 The decade of the 1990s offers a chance to build a new and better international order What policy choices will this decade pose for the United States This wide ranging volume of essays imaginatively addresses these crucial issues The peaceful revolutions of 1989 1990 in the Soviet Union and Eastern Europe have swept away the foundations of the Cold War The Eastern European nations are free Europe is no longer divided Germany is united The Soviet threat to Western Europe is ending with the collapse of the Warsaw Pact and the withdrawals and asymmetrical cuts of Soviet forces And U S Soviet rivalry in the Third World is giving way to cooperation in handling conflicts as in Iraq and elsewhere Much of course remains uncertain and unsettled What sort of Soviet Union will emerge from the ongoing turmoil with what political and economic system and what state structure How far and how soon will the Eastern European states succeed in developing pluralist democracies and market economies Are the changes irreversible Certainly there will be turmoil backsliding and failures but a return to the Cold War hardly seems likely **NATO -- the 1990s**, 1993 European Security in the 1990s W. Laqueur, L. Sloss, 2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of

European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism

The Evolution of International Security Studies Barry Buzan, Lene Hansen, 2009-08-27 International Security Studies ISS has changed and diversified in many ways since 1945 This book provides the first intellectual history of the development of the subject in that period It explains how ISS evolved from an initial concern with the strategic consequences of superpower rivalry and nuclear weapons to its current diversity in which environmental economic human and other securities sit alongside military security and in which approaches ranging from traditional Realist analysis to Feminism and Post colonialism are in play It sets out the driving forces that shaped debates in ISS shows what makes ISS a single conversation across its diversity and gives an authoritative account of debates on all the main topics within ISS This is an unparalleled survey of the literature and institutions of ISS that will be an invaluable guide for all students and scholars of ISS whether traditionalist new agenda or critical

Congress. House. Committee on Appropriations. Subcommittee on Department of Transportation and Related Agencies Appropriations, 1989 **China-Saudi Arabia Relations, 1990-2012** Naser M. Al-Tamimi, 2013-09-05 This book focuses on the relationship established between China the world s second largest economy and Saudi Arabia the world s top oil exporter Due to Saudi Arabia s dominance of the world oil market China is increasingly focusing its attention on the Saudi Arabia as a reliable oil supplier while Saudi Arabia sees China as an enormous potential market and strategic trade partner It investigates both countries motives for establishing a strategic relationship and outlines the potential for successful co operation between them It then goes on to address the wider implications for the United States in the Middle East

International Security Studies Peter Hough, Andrew Moran, Bruce Pilbeam, Wendy Stokes, 2015-02-20 This new

textbook provides students with a comprehensive and accessible introduction to the subject of security studies with a strong emphasis on the use of case studies. In addition to presenting the major theoretical perspectives, the book examines a range of important and controversial topics in modern debates covering both traditional military and non-military security issues such as proliferation, humanitarian intervention, food security, and environmental security. Unlike most standard textbooks, the volume also offers a wide range of case studies including chapters on the USA, China, the Middle East, Russia, Africa, the Arctic, the Middle East, Europe, and Latin America, providing detailed analyses of important global security issues. The 34 chapters contain pedagogical features such as textboxes, summary points, and recommended further reading, and are divided into five thematic sections: Conceptual and Theoretical, Military Security, Non-Military Security, Institutions and Security, and Case Studies. This textbook will be essential reading for all students of security studies and highly recommended for students of critical security studies, human security, peace and conflict studies, foreign policy, and International Relations in general.

Constructing Global Order Amitav Acharya, 2018-03-22. For a long time, international relations scholars have adopted a narrow view of what is global order, who are its makers and managers, and what means they employ to realize their goals. Amitav Acharya argues that the nature and scope of agency in the global order, who creates it, and how needs to be redefined and broadened. Order is built not by material power alone but also by ideas and norms. While the West designed the post-war order, the non-Western countries were not passive. They contested and redefined Western ideas and norms and contributed new ones of their own, making this book examine such acts of agency, especially the redefinitions of sovereignty and security shaping contemporary world politics. With the decline of Western dominance, ideas and agency from the Rest may make it possible to imagine and build a truly global order.

Department of Transportation and Related Agencies Appropriations for 1990: 1990 budget justifications, Department of Transportation ... pt. 3-6. Department of Transportation United States. Congress. House. Committee on Appropriations. Subcommittee on Department of

Transportation and Related Agencies Appropriations, 1989 **Critical Security Studies** Keith Krause, Michael C. Williams, 2002-09-11. This text takes issue with arguments that security studies is a discipline of limited use in making sense of the post-Cold War world. It argues that many of the most interesting theoretical issues in international relations can most usefully be studied through a prism labelled security studies. The book combines chapters which provide a variety of critical perspectives on the discipline and address a diverse range of theoretical concerns with chapters that examine such substantive issues as weapons proliferation and the changing meaning of security for actors in the erstwhile conflict between East and West. Weapons Proliferation in the 1990s Brad Roberts, 1995. The proliferation of weapons of mass destruction has emerged as a major topic of international security in the post-Cold War world. This compendium of articles published in *The Washington Quarterly* between 1991 and 1995 describes the changing nature of the problem, discusses new trends in nonproliferation and counterproliferation policy, identifies new arms control challenges at the regional and global levels, and

concludes by addressing the global politics of proliferation
