about the end of youth culture and the rise of a new right leaning conformism the book draws on interviews with DJs record company bosses musicians producers and fans to outline a clear transition in pop thinking a move from an obsession with style packaging and synthetic sounds to content socially conscious lyrics and a new authenticity This edition is framed by a prologue by Tara Brabazon asking how we can reclaim the spirit energy and authenticity of Madchester for a post youth post pop generation It is illustrated with iconic photographs by Kevin Cummins      Rocking Around the Clock E. Kaplan,2016-04-14 The first non stop rock video channel was launched in the US in 1981 As a unique popular culture form MTV warrants attention and in this the first study of the medium originally published in 1987 Ann Kaplan examines the cultural context of MTV and its relationship to the history of rock music The first part of the book focuses on MTV as a commercial institution on the contexts of production and exhibition of videos on their similarity to ads and on the different perspectives of directors and viewers Does the adoption of adolescent styles and iconography signal an open minded acceptance of youth s subversive stances or does it rather suggest a cynicism by which profit has become the only value In the second part of the book Kaplan turns to the rock videos themselves and from the mass of material that flows through MTV she identifies five distinct types of video the romantic the socially conscious the nihilistic the classical and the postmodern There are detailed analyses of certain videos and Kaplan focuses particularly on gender issues in videos by both male and female stars The final chapter explores the wider implications of MTV What does the channel tell us about the state of youth culture at the time      **Questions of Travel** Caren Kaplan,1996-08-21 On travel in literature      **The End of Art**
