Seeking The Soul Guildhall Research Studies:

Landscapes of the Mind: The Music of John McCabe George Odam, 2017-10-03 Liverpool born composer and pianist John McCabe established himself as one of Britain's most recorded contemporary composers as well as a celebrated performer and recording artist. This book covers every aspect of his compositions and will help guide both general and specialist listeners and performers through the so-called landscapes of the mind that his music evokes. The title was suggested by McCabe himself and his composing and performing life took him on journeys all over the world through a variety of landscapes many of which are to be found in essence in his music. The detailed discography will help readers to find recordings of many of the works described in the series of articles written by a collection of experienced critics, performers, broadcasters and reviewers, and the copious illustrations and full pages of musical score provide a variety of insights into McCabe's life and work.

The Musician's Body Jaume Rosset i Llobet, George Odam, 2017-10-03 Musicians suffer greatly from industry-related injury and illness and many of these problems are established during student days or even before. This affects all forms of music making from classical through jazz and rock to traditional folk. Hearing damage is of serious concern in most forms of music making but the most stressful situations and the most physical damage is recorded in the practice of classical music. The long hours of practice at the beginning of a musician's career are the main source of problems that sometimes only reveal themselves in later life. This book is aimed equally at student musicians, practising musicians and instrumental and vocal teachers and it aims to help them to begin to understand how and why their bodies function as they do when they perform and also how they may avoid professionally related illness or injury and achieve the highest standards of performance. The principal author, Dr Jaume Rosset i Llobet, is a medical expert and an internationally acclaimed researcher on the subject. He is the Director of a Centre for the Physiology of The Arts in Terrassa, Catalonia, one of the few clinics in the world to which musicians, dancers and performing artists can go for assessment and treatment. The book provides examples and references to the health of musicians covering a wide range of musical genres based on current research, practice and treatment. As well as physiological exposition, copiously illustrated with medical and humorous diagrams, the book covers ergonomics, risk factors, posture, breathing matters of diet and accommodation of professional needs in daily life.

Sonic Overload Peter J. Schmelz, 2021-01-01 Sonic Overload offers a new music-centered cultural history of the late Soviet Union. It focuses on polystylism in music as a response to the information overload swamping listeners in the Soviet Union during its final decades. It traces the ways in which leading composers Alfred Schnittke and Valentin Silvestrov initially embraced popular sources before ultimately rejecting them. Polystylism first responded to the utopian impulses of Soviet ideology with utopian impulses to encompass all musical styles from high to low. But these initial all-embracing aspirations were soon followed by retreats to alternate utopias founded on carefully selecting satisfactory borrowings as familiar hierarchies of culture, taste and class reasserted themselves. Looking at polystylism in the late USSR

tells us about past and present near and far as it probes the musical roots of the overloaded distracted present Based on archival research oral historical interviews and other overlooked primary materials as well as close listening and thorough examination of scores and recordings *Sonic Overload* presents a multilayered and comprehensive portrait of late Soviet polystylism and cultural life and of the music of Silvestrov and Schnittke *Sonic Overload* is intended for musicologists and Soviet Russian and Ukrainian specialists in history the arts film and literature as well as readers interested in twentieth and twenty first century music modernism and postmodernism quotation and collage the intersections of high and low cultures and politics and the arts
