Finding the Monk Within Edward C. Sellner, 2008 Finding the Monk Within is written with the conviction that lying deep within every person and underlying much of contemporary western and eastern cultures is an ancient memory a vital archetypal energy related to monasticism and its spirituality This book recovers that monastic memory the living presence of the past for those who desire to name and incorporate monastic values values of solitude and silence faith and compassion friendship and mentoring contemplation and leadership itself The author examines the social and religious

dimensions in the fourth century that gave rise to monasticism then looks at Christian leaders from late antiquity to the medieval period associated with monasticism in both East and West who have much to teach about monastic values and their relevance for today among them Antony the first monk Augustine and Jerome John Cassian Brigit of Kildare and early Celtic monasticism Gregory the Great Benedict and Scholastica and finally Bernard of Clairvaux By studying the history of monasticism and its great heroes we come to realize that for the Christian much of what we call monastic is purely and simply what being a follower of Christ is all about and that being a monk whether inside monastic enclosures or outside in the world is simply becoming the sort of person everyone ought to be a person who unites action and contemplation in the care of souls writes the author By becoming familiar with the stories and thought of these inspirational figures readers will be inspired to incorporate monastic perspectives and values into their own lives

An Analysis of St. Benedict's The Rule of St. Benedict Benjamin Laird, 2017-07-05 The Rule of St Benedict written around 1500 years ago by the Italian monk St Benedict of Nursia is a slim handbook for monastic life a subject many modern readers would regard as relatively niche It is however also a model of the organized and clearly

expressed thought produced by good reasoning skills a mainstay of critical thinking Reasoning is all about making a good case for something through logical arguments neatly and systematically organised In Benedict s case his main concern was to lay out a set of rules and practices that would allow monasteries to run as well organised communities Communal living presented huge challenges and yet it was also Benedict believed the best way for monks to sustain themselves their religion and the learning and teaching that went with it His Rule laid out concise but detailed chapters on the best way to achieve this including provisions for all areas of personal and communal discipline right down to how tasks might be allotted to individual monks Providing a complete roadmap for successfully running a community the concise brilliance of The Rule has even been suggested by some business professors as useful model for running small businesses today

This Monastic Moment John W. de Gruchy,2021-10-30 Kairos refers to moments in chronological time when all hell is breaking loose and we are called to change our ways before we are dragged into the abyss Kairos is apocalyptic time and it is here and now Such is the time in which we need to listen again to St Benedict of Nursia Far too many of us Christians have either been seduced by the false values of the age and the spirit of Christian triumphalism or else have been attracted to gnostic forms of spirituality that provide a means of escape from reality and responsibility Any delay in responding to this kairos moment increases the danger that we fail to change our ways and grasp the opportunity God gives us to receive the coming kingdom in greater fullness now So St Benedict _een hundred years a_er he wrote his Rule continues to tell us to listen wake up and run while there is still light _is is a time for both contemplation and action prayer and doing justice a time for mystics and prophets to join hands and hearts for the sake of the world From the Prologue

Wisdom From the Margins William G. Britton,2018-05-16 Henri Nouwen wisely said The great illusion of leadership is to think that man can be led out of the desert by someone who has never been there Jesus has

been there and knows how to lead us out but first he just may lead us in He meets us in the desert and does his best work in us there We look for an easier way in vain I myself reluctantly entered the desert and eventually received unimagined gifts there gifts I didn't ask for deserve or want gifts hidden in such painful loss that I despaired and yet looking back now these desert gifts were the best thing that ever happened to me I entered the desert and years later found my way out It's not a new way it was just new to me Jewish and Christian sages had been living it for thousands of years Somehow in recent generations we managed to forget it In this collection I mean to begin to make those riches available to you I'm hoping that like me you'll discover something that you didn't know you wanted or needed and something now you wouldn't give up at any price
