Multicultural Writers from Antiquity to 1945 Alba Amoia,Bettina L. Knapp,2001-10-30 The final decades of the 20th century have seen an explosion of interest in multiculturalism But multiculturalism is more than an awareness of the different cultures comprising contemporary societies For centuries people from around the world have come in contact with cultures other than their own and their exposure to multiple cultures has fostered their creativity and ability to make lasting contributions to civilization The effects of multiculturalism are especially apparent in literature since writers tend to be particularly aware of their environments and record their experiences This reference includes alphabetically arranged entries for more than 100 world writers from antiquity to 1945 who were significantly influenced by cultures other than their own Included are entries for major canonical Ancient and Modern writers of the Western and Eastern worlds Each entry is

written by an expert contributor and includes a brief biography a discussion of multicultural themes and contexts a summary of the writer s critical reception and primary and secondary bibliographies By illuminating the shaping influence of multiculturalism on these writers the volume points to the lasting value of multiculturalism in the contemporary world

The Mythology of the Northland Viktor Rydberg, 2020-12-17 The Mythology of the Northland is a historical work by Swedish author Viktor Rydberg which deals with Germanic tradition and Norse mythology One of Rydberg s mythological theories developed in this book is that of a vast World Mill which rotates the heavens which he believed was an integral part of Old Norse mythic cosmology

Golden Cables of Sympathy Margaret H. McFadden, 2021-10-21 An intricate network of contacts developed among women in Europe and North America over the course of the nineteenth century These women created virtual communities through communication support and a shared ideology Forged across boundaries of nationality language ethnic origin and even class these connections laid the foundation for the 1888 International Council of Women and formed the beginnings of an international women s movement This matrix extended throughout England and the Continent and included Scandinavia and Finland In a remarkable display of investigative research Margaret McFadden describes the burgeoning avenues of communication in the nineteenth century that led to an explosion in the number of international contacts among women This network blossomed because of increased travel opportunities advances in women s literacy and education increased activity in the temperance abolitionist and peace reform movements and the emergence of female evangelicals political revolutionaries and expatriates Particular attention is paid to five women whose decades of work helped give birth to the women s movement by century s end These mothers of the matrix include Lucretia Mott and Elizabeth Cady Stanton of the United States Anna Doyle Wheeler of Ireland Fredrika Bremer of Sweden and Frances Power Cobbe of England Despite their philosophic differences these leaders recognized the value of friendship and advocacy among women and shared an affinity for bringing together people from different cultural settings McFadden demonstrates without question that the traditions of transatlantic female communication are far older than most historians realize and that the women s movement was inherently international No other scholar has painted so complete a picture of the golden cables that linked the women who saw the Atlantic and the borders within Europe as bridges rather than barriers to improving their status

The Letters of Margaret Fuller Margaret Fuller, 2018-10-18 The fifth volume of the collected letters of Margaret Fuller traces a period of great emotional turbulence reflecting the personal struggles she faced in motherhood and the external strife of revolutionary Europe in 1848 The book opens as she takes up residence in Rome where she continued to write essays for the New York Daily Tribune and kept up a steady flow of commentary on the political situation for her family and friends Among Fuller s correspondents are Ralph Waldo Emerson Giovanni Ossoli William Wetmore Story Giuseppe Mazzini Horace Greeley George William Curtis and Elizabeth Barrett Browning Many of the letters were written in Italian and are translated here for the first time Since Fuller was more centrally involved in the Italian Risorgimento than any other

Anderson, 2000-03-16 Over one hundred fifty years ago champions of women's rights in the United States Britain France and Germany formed the world's earliest international feminist movement Joyous Greetings is the first book to tell their story From Seneca Falls in upstate New York to the barricades of revolutionary Paris from the Crystal Palace in London to small towns in the German Rhineland early feminists united to fight for the cause of women At the height of the Victorian period they insisted their sex deserved full political equality called for a new kind of marriage based on companionship claimed the right to divorce and to get custody of their children and argued that an unjust economic system forced women into poorly paid jobs They rejected the traditional view that women's subordination was preordained natural and universal In restoring these daring activists achievements to history Joyous Greetings passes on their inspiring and empowering message to today's new generation of feminists Victorian Women and the Economies of Travel, Translation and Culture, 1830-1870 Judith Johnston, 2016-02-24 Both travel and translation involve a type of journey one with literal and metaphorical dimensions Judith Johnston brings together these two richly resonant modes of getting from here to there as she explores their impact on culture with respect to the work of Victorian women Using the metaphor of the published journey whether it involves actual travel or translation Johnston focusses particularly on the relationships of various British women with continental Europe At the same time she sheds light on the possibility of appropriation and British imperial enhancement that such contact produces Johnston's book is in part devoted to case studies of women such as Sarah Austin Mary Busk Anna Jameson Charlotte Guest Jane Sinnett and Mary Howitt who are representative of women travellers translators and journalists during a period when women became increasingly robust participants in the publishing industry Whether they wrote about their own travels or translated the foreign language texts of other writers Johnston shows women were establishing themselves as actors in the broad business of culture In widening our understanding of the ways in

which gender and modernity functioned in the early decades of the Victorian age Johnston s book makes a strong case for a greater appreciation of the contributions nineteenth century women made to what is termed the knowledge empire The Chronicle ,1954 *The Oxford Encyclopedia of Women in World History* Bonnie G. Smith,2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike Structures of Influence Marilyn Johns Blackwell,2020-05-01 This collection of essays featuring contributions from eminent Swedish and American Strindberg scholars addresses the question of how Strindberg s art collides and colludes ideologically and aesthetically with the literary doyens of the nineteenth and twentieth centuries in both the Scandinavian and the larger Western cultural context
