## Selecta 1952 1970

**Mark Steyvers**

## Selecta 1952 1970:

**Reformation Letters** Michael Parsons, 2018-05-29 Reformation Letters is a detailed look at John Calvin's letters which were mostly of a pastoral nature. These were letters that define the Reformation and demonstrate Calvin's concerns, his strengths and his weaknesses against the background of his own time and contemporaries. Here we find Calvin on his own calling and exile from Geneva, Calvin on marriage, his own and others', Calvin's prefatory letter to Francis I of France, Calvin's letter to Sadoleto on the nature of the Reformation, Calvin on Servetus and the reasons for his trial and execution for heresy, and Calvin's letters to those facing death and persecution.

**Writing Bonds** Manuela Palacios, Laura Lojo, 2009 This book focuses on the emergence of women poets from the 1980s to the present in both Ireland and Galicia. Departing from common ground in shared myths and comparable political and social circumstances, each contributor to this volume looks into central aspects of Irish and Galician identity issues which range from configurations of the nation, nature and feminine paradigms to the poets' elaborations on their own literary practice. The comparative approach followed shows both that questions raised in one community can find relevant answers in the other and that reciprocal knowledge helps to disseminate the writers' work and the criticism of it beyond their respective national borders. This collection of essays and interviews also provides both poets and critics with a mutual space in which to voice their concerns, thus bringing down the barrier that is often raised artificially between these two literary activities.

**Archetypal Images in Greek Religion** Carl Kerényi, 2015-03-08 What did Zeus mean to the Greeks? And who was Hera united with Zeus historically and archetypally as if they were a human pair? C. Kerényi fills a gap in our knowledge of the religious history of Europe by responding to these questions. Examining the word Zeus and its Greek synonyms theos and daimon, the author traces the origins of Greek religion in the Minoan-Mycenaean civilization. He shows how Homer's view of the gods decisively shaped the literary and artistic tradition of Greek divine mythology. The emergence of the Olympian family is seen as the expression of a humane Zeus cult determined by the father image but formed within the domain of Hera. Originally published in 1976, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press.
