Wrightsman, Francis John Bagott Watson, Everett Fahy, 1966 Volume Five This catalogue of a private collection includes works by such artists as Vermeer Rubens Renoir La Tour the Tiepolos El Greco Canaletto and Van Dyck Metropolitan Museum of Art website *Painting the Digital River* James Faure Walker, 2006 This book is as much about painting as it is about the digital world But beyond both it is really about visual intelligence What makes it a joy to read is the lovely match between Faure Walker's subject and his style of writing apparently artless just making itself up as it goes along but actually always with a witty spring and never slack MATTHEW COLLINGS artist critic author and television host As a painter himself James Faure Walker opens up a provocative dialogue between painting and digital computing that is essential reading for all painters interested in new technologies IRVING SANDLER author critic and art historian Faure Walker has a distinguished background as both a painter and digital artist He is an early adopter of digital technology in this regard so has lived the history of the ever accelerating embrace of the digital On top of this he is a good storyteller and a clear writer who avoids the pitfalls of pretentious art world jargon LANE HALL digital artist and professor Using a wide stream of fresh water as a metaphor Faure Walker depicts a flow of ideas concepts and solutions that result in digital art All the core elements of an art style in making are here ties with mainstream and traditional art stages of technological progress and reflections on the bright and varied personalities of digital artists With a personal approach Faure Walker presents vibrant exciting emotionally overpowering art works and describes them with empathy and imagination This entertaining sensitive and observant book itself flows like a river ANNA URSYN digital artist and professor Something like this book is overdue I am not aware of any comparable work Lots of how to do but nothing raising so many interesting and critical questions HANS DEHLINGER digital artist and professor Here is the intimate narrative of a passionate yet skeptical explorer who unflinchingly records his artistic discoveries and personal reflections Faure Walker's decades of experience as a practicing painter art critic and educator shine through on every page The book is an essential resource for anyone interested in digital visual culture ANNE MORGAN SPALTER digital artist author and visual computing researcher This book is about art written from an artist's point of view It also is about computers written from the perspective of a painter who uses them *Painting the Digital River* is James Faure Walker's personal odyssey from the traditional art scene to fresh horizons from hand to digital painting and sometimes back again It is a literate and witty attempt to make sense of the introduction of computer tools into the creation of art to

understand the issues and the fuss to appreciate the people involved and the work they produce to know the promise of the new media as well as the risks Following his own winding path Faure Walker tells of learning to paint with the computer of misunderstandings across the art and science divide of software limitations of conversations between the mainstream and digital art worlds of emerging genres of digital painting of the medieval digital of a different role for drawing As a painter and computer enthusiast the author recognizes the marvels of digital paint as well as anyone But he also challenges the assumption that digital somehow means different The questions he raises matter to artists of every background style and disposition and the answers should reward anyone seeking insight into contemporary art **The Gates of Hell** Arline

Boucher Tehan, 2010-10-13 The Gates of Hell Rodin's Passion in Stone is not just another biography of Rodin There are many excellent ones already Rather it is an attempt to understand the sculptor after immersion in his works by listening to his own words and those spoken about him For Rodin was more than a sculptor of genius He had the imagination and the courage to search for the truth not only with his artist's hands but with the penetrating gaze and mastery of the word that define the writer His book Les Cathedrales de France and his hundreds of letters offer a new close up of the artist both visual and verbal His musings on art and on life and his contemporaries' views of him form a biographer's trove This rich assemblage of words like a hoard of tiny fragments of stone and glass when pieced together form a mosaic likeness of an artist who was himself a story teller in stone
