Selected Topics in Equity Portfolio Management Frank J. Fabozzi, CFA, 1998-12-15 There are many styles, models, and factors that go into the management of an equity portfolio. The traditional manager's focus on stock picking and the resulting ad hoc nature of portfolio construction can lead to poorly defined portfolios. Thus, the options between active, passive, and engineered management come into play, with the ultimate objective being to establish an investment structure that will provide a return over time that compensates for the risk incurred.

Analysis of Financial Statements Pamela P. Peterson, Frank J. Fabozzi, 1999-05-15 Financial statements capture and report on four key business activities: planning, financing, investing, and operating activities. To intelligently understand, analyze, and interpret financial statements, you must look for the right information, know where to locate it, and then act swiftly on the findings. *Analysis of Financial Statements* provides the essential concepts and tools needed by analysts who make decisions on the basis of information found in financial statements. This book offers a comprehensive approach to understanding financial statements from sources of financial information and the three basic types of statements to the various measures that common stock and equity analysts can use to assess a company. *Analysis of Financial Statements* also includes examples of real-world applications from practicing analysts, plus review questions at the end of each chapter.
