Farewell To China's Gdp Worship Jinzao Li,2017-12-28 Economic and social development is and will be the main task in the long run in China and development is the basis and key to solve the problems faced Although people have been criticising its limitations for reasons of one sort or another no better alternative index has ever been put forward GDP is still commonly used all over the world not only as a fundamental and comprehensive indicator for economic analysis but also as an important basis for many rules and evaluations It is impossible to abolish GDP but it is now the time to bid farewell to its worship By saying goodbye to China s GDP worship the role of GDP may be downplayed and restored to its original position In modern China in order to adhere to the essential guideline that development is the absolute principle it is necessary to steadfastly undertake scientific development pay more attention to the people place more emphasis on comprehensive concerted and sustainable development give priority to the overall consideration of various aspects of development and make more efforts to protect and improve people s livelihood and promote social equality and justice In light of the spirit of scientific outlook on development it is imperative to establish new concepts an evaluation
