St. Gregory of Nazianzus John Anthony McGuckin,2001 Saint Gregory of Nazianzus stands as the founding father of the Byzantine religious synthesis and his own conception of the vision of God as light made him an important figure for Byzantine spiritual writers This study is a critical analysis of the man his writings and inner life in the English language It offers an insight into the mind of one of the greatest protagonists of Nicene theology and opens a window onto the world of late antiquity and the place of the Christian Church in it

The Philosophical Life Arthur P. Urbano,2013-10-12 Ancient biographies were more than accounts of the deeds of past heroes and guides for moral living They were also arenas for debating pressing philosophical questions and establishing intellectual credentials as Arthur P Urbano argues in this study of biographies composed in Late Antiquity

Anticorruption in History Ronald Kroeze,André Vitória,Guy Geltner,2017-12-01 Anticorruption in History is a timely and urgent book corruption is widely seen today as a major problem we face as a global society undermining trust in government and financial institutions economic efficiency the principle of equality before the law and human wellbeing in general Corruption in short is a major hurdle on the path to Denmark a feted blueprint for stable and successful statebuilding The resonance of this view explains why efforts to promote anticorruption policies have proliferated in recent years But while the subject of corruption and anticorruption has captured the attention of politicians scholars NGOs and the global media scant attention has been paid to the link between corruption and the change of anticorruption policies over time and place with the attendant diversity in how to define identify and address corruption Economists political scientists and policy makers in particular have been generally content with tracing the differences between low corruption and high corruption countries in the present and enshrining them in all manner of

rankings and indices The long term trends social political economic cultural potentially undergirding the position of various countries plays a very small role Such a historical approach could help explain major moments of change in the past as well as reasons for the success and failure of specific anticorruption policies and their relation to a country s image of itself or as construed from outside as being more or less corrupt It is precisely this scholarly lacuna that the present volume intends to begin to fill The book addresses a wide range of historical contexts Ancient Greece and Rome Medieval Eurasia Italy France Great Britain and Portugal as well as studies on anticorruption in the Early Modern and Modern era in Romania the Ottoman Empire the Netherlands Germany Denmark Sweden and the former German Democratic Republic *Modern Greek Literature* Gregory Nagy, Anna Stavrakopoulou, 2004-06 This collection examines major Greek authors from the early 19th century through the present day spanning from romantic to post modern authors poets and playwrights The essays focus on intersections between oral and written traditions in nineteenth and twentieth century Greece Major authors discussed included Solomos Vizyenos Papadiamantis Seferis and many others American Classical Review, 1971 □□□□□□□□□□ □□□□□□□□□□, 1986 **Bibliographie Internationale de L'histoire Des Religions**, 1954 *Chain of Gold* Susan C. Jarratt, 2019-11-08 Barred from political engagement and legal advocacy the second sophists composed and performed epideictic works for audiences across the Mediterranean world during the early centuries of the Common Era In a wide ranging study author Susan C Jarratt argues that these artfully wrought discourses formerly considered vacuous entertainments constitute intricate negotiations with the absolute power of the Roman Empire Positioning culturally Greek but geographically diverse sophists as colonial subjects Jarratt offers readings that highlight ancient debates over free speech and figured discourse revealing the subtly coded commentary on Roman authority and governance embedded in these works Through allusions to classical Greek literature sophists such as Dio Chrysostom Aelius Aristides and Philostratus slipped oblique challenges to empire into otherwise innocuous works Such figures protected their creators from the danger of direct confrontation but nonetheless would have been recognized by elite audiences Roman and Greek alike by virtue of their common education Focusing on such moments Jarratt presents close readings of city encomia biography and texts in hybrid genres from key second sophistic figures setting each in its geographical context Although all the authors considered are male the analyses here bring to light reflections on gender ethnicity skin color language differences and sexuality revealing an underrecognized diversity in the rhetorical activity of this period While US scholars of ancient rhetoric have focused largely on the pedagogical Jarratt brings a geopolitical lens to her study of the subject Her inclusion of fourth century texts the Greek novel Ethiopian Story by Heliodorus and the political orations of Libanius of Antioch extends the temporal boundary of the period She concludes with speculations about the pressures brought to bear on sophistic political subjectivity by the rise of Christianity and with ruminations on a third sophistic in ancient and contemporary eras of empire
