Numbers, 2013-09-19 Religious pluralism has characterized America almost from its seventeenth century inception but the past half century or so has witnessed wholesale changes in the religious landscape Gods in America brings together leading scholars from a variety of disciplines to explain the historical roots of these phenomena and assess their impact on modern American society Asian Art Lark E. Mason, 2002 A specialist in Asian art at Sotheby's Mason presents a very useful introduction to a complicated subject He begins with an essay on the history of Asia which despite its brevity will be useful for the collector targeted by this book Individual chapters range from ceramics and metalwork to prints paintings and textiles the chapter on The Artisan and Craftsman examines the quality condition and authenticity of works in areas such as arms armor glass ivory and jewelry The book contains appendixes of chronological tables and major marks on Chinese and Japanese works of art as well as an index and a fine bibliography The narrative does not confuse readers new to the subject with excessive detail and the photographs are clear and very instructive A beautiful book at a reasonable price this volume contains an amazing wealth of information on a very broad subject Recommended for both public and academic libraries
