Selected Papers Of Wang Yuan:

Selected Papers of Wang Yuan Yuan Wang, 2005 This volume presents a comprehensive collection of Wang Yuan's original important papers which are not available elsewhere since the majority of the papers were published in China. Covering both pure number theory and applied mathematics, this book is important for understanding Wang Yuan's academic career and also the development of Chinese mathematics in recent years since Wang Yuan's work has a wide-ranging influence in China. Wang Yuan is a professor and academician of the Chinese Academy of Sciences. He received his honorable Doctorship from Hong Kong Baptist University. He has published 70 papers and ten books. **Selected Papers** Luogeng Hua, 1983 From the Preface by H. Halberstam: The unexpected arrival of Loo Keng Hua in Europe in the fall of 1978 was for many of us a romantic event; a legend came to life. What had long been and had seemed destined to remain merely a revered name in the mathematical annals of our times assumed suddenly the handsome presence of the man himself: dignified yet jovial, youthful yet wise, serene yet ever questing for new achievements, and we realized how very much we had missed by his thirty years' absence from the international scene. While the publication of these Selecta from his writings needs no justification beyond what is in them, it will, I hope, serve also as a way of saying a most cordial welcome back. It has been an honor for me to play a small role in producing the Selecta. To select only parts from the imposing whole is automatically to be wrong, and it may well seem in the long run to quote loosely from a poem of Hua himself that I have repaid gifts in jade with artifacts of wood. Scientific and Technical Aerospace Reports, 1984 **A Panoramic View of the Song Dynasty**

Through the Lens of Shipbuilding Industry Chunyan Huang, 2024-09-25 This book examines the impact of shipbuilding on the society of the Song Dynasty from multiple perspectives and points out the positive contribution of ancient manufacture industry to social development at that time. It explores some virgin territories and presents strong originality such as the inland navigation methods in the Song Dynasty, the system of gods and goddesses in the aquatic world, and the defense system of the Yangtze River and the sea in the Southern Song Dynasty. It includes the markets in the coastal areas, the perception and imagery of the sea, the maritime disasters and rescues, the river courses and sea warfare, and the management of private ships in the Song Dynasty. On top of that, it provides fresh analysis and new perspectives on some issues that have been studied, such as Lisheng shapes and sizes of ships and vehicles and ships in the Song Dynasty. *Mao's Road to Power: Revolutionary Writings, 1912-49: v. 5: Toward the Second United Front, January 1935-July 1937* Zedong Mao, Stuart Schram, 2017-07-28 This projected ten-volume edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought. It has been compiled from all available Chinese sources, including the many new texts that appeared in 1993 for Mao's centenary. **Allegoresis** Longxi Zhang, 2018-05-31 Why is it that a text, particularly a canonical text, is often said to contain a meaning different from what it literally says? How did allegorical readings arise and develop? By looking at such examples as Jewish and Christian interpretations of the Song of Songs and traditional Chinese

commentaries on the Confucian classic Book of Poetry Zhang Longxi discusses allegorical readings from a broad perspective that bridges the usual East West cultural divide and examines their social and political implications His approach is wide ranging cross cultural and cross disciplinary exploring allegoresis with regard to religion philosophy and literature In his inquiry into allegory and allegorical interpretation Zhang examines the idea of a self explanatory text of the Bible as conceived by Augustine Aquinas and Luther discusses the importance of the literal basis of textual interpretation and takes up the question of moral responsibility and political allegiance Zhang who regards utopia as an allegory of social and political ideas explores how utopian visions vary in their Chinese and Western expressions in the process commenting on contemporary literary theory and political readings of literature past and present **The Essence of Chinese Humanistic Culture** Qizhi Zhang,2024-07-20 This book presents a comprehensive and inclusive exploration of the core essence of Chinese civilization and its deeply rooted humanistic values It goes beyond the surface and delves into the philosophical ethical and historical aspects aiming to unravel the profound characteristics and spiritual significance of Chinese culture Taking an interdisciplinary approach the book carefully examines classical texts traditional values moral principles and cultural legacies that have shaped the Chinese humanistic spirit throughout history By doing so it offers readers a deep understanding of the rich cultural heritage that China possesses One of the highlights of the book is its exploration of the relevance of Chinese cultural traditions and values in today s society It sheds new light on the significance of the Chinese humanistic spirit in the modern world demonstrating its enduring importance and its potential to address contemporary issues *Colours and Contrast* Clarence Eng,2014-11-14 In *Colours and Contrast* Clarence Eng covers the social history of architectural ceramics in China their development both aesthetically as ornament and technically as durable protective components in ancient Chinese architecture from palaces and temples to pagodas and screen walls Architecture and Design for Industry 4.0 Maurizio Barberio,Micaela Colella,Angelo Figliola,Alessandra Battisti,2023-10-06 This book collects contributions of forefront research and practices related to the use of the enabling technologies of Industry 4 0 in the architecture and design fields and their impact on the UN s Sustainable Developments goals The book is structured into three sections research practice and technologies with the goal of creating a new framework useful for widespread awareness necessary to initiate technology transfer processes for the benefit of the public sector universities research centers and innovative companies and a new professional figure capable of controlling the entire process is essential Thus the book chapters arouse a series of relevant topics such as computational and parametric design performance based architecture data driven design strategies parametric environmental design and analysis computational and parametric structural design and analysis AI and machine learning BIM and interoperability VR and AR digital and robotic fabrication additive manufacturing and 3D printing R D and entrepreneurship circular architecture and didactics In the post digital era where the essence of design lies in the control and information of the process that holistically involves all the aspects

mentioned above rather than in formal research it is necessary to understand technologies and analyze the advantages that they can bring in terms of environmental sustainability and product innovation **Mani's Pictures** Zsuzsanna

Gulácsi,2016-04-18 The founder of Manichaeism Mani 216 274 277 CE not only wrote down his teachings to prevent their adulteration but also created a set of paintings the Book of Pictures to be used in the context of oral instruction That pictorial handscroll and its later editions became canonical art for Mani s followers for a millennium afterwards This richly illustrated study systematically explores the artistic culture of religious instruction of the Manichaeans based on textual and artistic evidence It discusses the doctrinal themes soteriology prophetology theology and cosmology depicted in Mani s canonical pictures Moreover it identifies 10th century fragments of canonical picture books as well as select didactic images adapted to other non canonical art objects murals hanging scrolls mortuary banners and illuminated liturgical manuscripts in Uygur Central Asia and Tang Ming China
