solely in professional and literary hands The mediaeval minstrels and jongleurs who may best be studied in L on Gautier s Introduction to his Epop es Fran aises sang in Court and Camp The poorer less regular brethren of the art harped and played conjuring tricks in farm and grange or at street corners The foreign newer metres took the place of the old alliterative English verse But unprofessional men and women did not cease to make and sing **The Selected Works of Margaret Oliphant, Part I Volume 2** Joanne Wilkes,2024-05-31 Margaret Oliphant 1828 97 had a prolific literary career that spanned almost fifty years She wrote some 98 novels fifty or more short stories twenty five works of non fiction including biographies and historic guides to European cities and more than three hundred periodical articles This is the most ambitious critical edition of her work *The Literature of Idaho* James H.
