Selection Evaluation Of Teachers:

Teacher Evaluation Dale L. Bolton,1972 **Measurement and Evaluation** David A. Erlandson,James Mc Namara,Maryanne Mc Namara,2013-10-31 Written in a conversational style for principals who are not statisticians this book will help you use measurement and evaluation to propel your school towards educational excellence Evaluating America's Teachers W. James Popham,2013-04-10 When teacher evaluations are fair everyone wins Poor evaluation systems don't just hurt teachers they hurt students too That's why America can't afford to wait for the teacher evaluation problem to be solved To provide balanced accurate and rigorous evaluations that take into account each teacher's particular circumstances only one system can work evidence governed collegial judgment This book includes A discussion of common evaluation systems including testing value added models and observations Analysis of federal guidelines and state responses Action steps teachers and school leaders can take to influence policy A clear rationale and strategies for implementing a teacher evaluation model based on human judgment **Evaluating Teachers And Administrators** George B. Redfern,2019-04-05 Stressing the importance of using evaluation as a means to improve teacher and administrator performance Dr Redfern provides a practical guide to conducting an evaluation and using its results He thoroughly describes the anatomy of the evaluation process outlines the materials needed and covers such often neglected topics as evaluation of substandard performance assessment of the performance of administrators and supervisors evaluation as an administrative tool in education management and the potential pitfalls inherent in the evaluation process The book closes with detailed suggestions for developing or revising programs for personnel evaluation **National Survey of the Education of Teachers: Selected bibliography on the education of teachers** Annie Reynolds,James Frederick Abel,Katherine Margaret Cook,United States. National Survey of the Education of Teachers,Walter Herbert Gaumnitz,Florence E. Reynolds,1935 **An Evaluation of Some Techniques of Teacher Selection** Ernest Walter Tiegs,1928 *PREP Report* ,1972 Public Elementary Teachers' Views on Teacher Performance Evaluations Mary Jo Nolin,1994 A study was conducted to determine the extent to which public school teachers of kindergarten through grade 6 have experienced formal evaluations in their current school and the procedures employed in evaluating teacher performance The nationally representative Survey on Teacher Performance Evaluations was administered to approximately 1 000 elementary school teachers in the spring of 1993 Findings include the following 1 most teachers 89 percent believe their last performance evaluation provided an accurate assessment of their teaching performance 2 94 percent reported that evaluation criteria were known to them prior to assessment 3 92 percent reported that their most recent evaluation included classroom observations 4 while 99 percent said that subject matter knowledge should be a consideration in performance evaluation only 65 percent said it had been considered in their most recent evaluation 5 most teachers perceived that their evaluators were competent to judge performance in selected aspects of teaching and 6 three fourths of the sample indicated that determining teachers pay levels

was not an objective of evaluations at their school and 50 percent agree that this should not be an objective Fourteen statistical tables of estimates and standard errors and a sample copy of the survey instrument are appended LL **The Selection and Evaluation of Teachers** Dale L. Bolton,1970 Assessing Expressive Learning Charles M. Dorn,Robert Sabol,Stanley S. Madeja,F. Robert Sabol,2014-04-04 Assessing Expressive Learning is the only book in the art education field to date to propose and support a research supported teacher directed authentic assessment model for evaluating K 12 studio art and to offer practical information on how to implement the model This practical text for developing visual arts assessment for grades 1 12 is based on and supported by the results of a year long research effort primarily sponsored by the National Endowment for the Arts involving 70 art teachers and 1 500 students in 12 school districts in Florida Indiana and Illinois The purpose of the study was to demonstrate that creative artwork by K 12 students can be empirically assessed using quantitative measures that are consistent with the philosophical assumptions of authentic learning and with the means and ends of art and that these measures can reliably assess student art growth A further goal was to provide a rationale for the assessment of student art as an essential part of the K 12 instructional program and to encourage art teachers to take responsibility for and assume a leadership role in the assessment of art learning in the school and the school district Assessing Expressive Learning reports on current assessment methods but also stresses a time tested portfolio assessment process that can be used or adapted for use in any K 12 art classroom includes the assessment instruments used in the study and several case studies of art teachers using electronic portfolios of student work a bibliography of major art assessment efforts and a critical review of current methods is designed to be teacher and system friendly unlike many other art assessment publications that provide only a review of information on assessment and both documents an experiment where artistic values and aesthetic issues were considered paramount in the education of K 12 students in the visual arts and also serves as a guide for the conduct of similar experiments by art teachers in the nation s schools the research methodology and results are reported in an appendix in a format that will enable educational researchers to duplicate the study This volume is ideal as a text for upper division undergraduate and graduate classes in visual arts education assessment and highly relevant for college art education professors researchers and school district personnel involved in the education and supervision of art teachers and researchers interested in performance measurement
