

Ilyenkov sums up - and sets us on course

*The radical, materialist rethinking of ... [Hegel's] logic (dialectics) was linked with affirmation of the **objective reality of the universal** ...*

*... a law-governed connection of material phenomena... . in the context of a **self-developing totality or aggregate**...*

*...all the components of which were related by virtue of **a unity of genesis**....*

Dialectical Logic chapter 11

Self Motioned Atomic Dialectical Materialist Logic

Robert Waller

Self Motioned Atomic Dialectical Materialist Logic:

Self-Motioned Atomic Dialectical Materialist Logic H. Dallalbashi, 1979-07 Self-Motioned Atomic Dialectical Materialist Logic Hossein Dallalbashi, 2017-08-04 The Vantage Press which published this book in 1979 wrote this review on the book Most people think of science and philosophy as two separate and unrelated subjects The author of this book Hossein Dallalbashi shows how this need not be so and offers a through analysis of the relation between natural sciences and scientific materialistic philosophy He begins by showing how Karl Marx and Fredrick Engels took the mechanical materialist philosophy of their time and applied the idea of evolution to it thereby developing dialectical materialist logic The author points out how in order to be relevant philosophy must constantly assimilate the discoveries of natural sciences Lenin said such changes did not constitute revisionism a deviation from dialectical materialist logic but in fact were essential in Marxism The author believes the gap between science and philosophy is caused by scientists who are ignorant of scientific materialistic philosophy and philosophers who think they can continue philosophizing making sense and relating to people without having to acquire a comprehensive understanding of natural sciences and un interruptedly incorporate the new scientific discoveries into philosophy Mr Dallalbashi points out how the separation has been harmful to both Einstein claimed that his best students in atomic physics were those with having strong interest in scientific philosophy The author discusses the atomic structure as the building blocks of the Universe and how motion is inherent in all atoms He then promotes the notion of self motioned atomic dialectical materialist logic Throughout the book appropriate quotations are utilized from different famous philosophers and natural scientists supporting the author s thesis This book is scholarly and yet written in a vivid style with much original thinking by the author *Books Out-of-print* ,1986 **Books in Print** ,1982 *Bulletin of the Atomic Scientists* ,1954-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world The Human Eros Thomas M. Alexander, 2013-07-01 In these philosophical essays a leading John Dewey scholar presents a new conceptual framework for exploring human experience as it relates to nature The Human Eros explores themes in classical American philosophy primarily the thought of John Dewey but also that of Ralph Waldo Emerson George Santayana and Native American traditions Using these works as a critical base Thomas M Alexander suggests that human beings have an inherent need to experience meaning and value what he calls a Human Eros Our various cultures are symbolic environments or spiritual ecologies within which the Human Eros seeks to thrive This is how we inhabit the earth Encircling and sustaining our cultural existence is nature yet Western philosophy has not provided adequate conceptual models for thinking ecologically Alexander introduces the idea of eco ontology to explore ways in which this might be done beginning with the primacy of Nature over Being but also including the recognition of possibility and potentiality as inherent aspects of existence He argues for the centrality of Dewey s thought to an effective

ecological philosophy Both pragmatism and naturalism he shows need to be contextualized within an emergentist relational nonreductive view of nature and an aesthetic imaginative nonreductive view of intelligence **Bulletin of the Atomic Scientists** ,1994-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Be Human Or Die** Robert Waller,1973 *Bulletin of the Atomic Scientists* ,1959-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world Pears Cyclopaedia L. Mary Barker,1962
