Self and Nation Stephen Reicher, Nick Hopkins, 2000-12-18 A RARE BOOK FROM LOCAL AUTHORS Here is a rare book a truly helpful piece of work on the psychology of nationalism Stephen Reicher and Nick Hopkins of St Andrews and Dundee Universities focus much of their study of recent Scottish experience drawing on inter views with political activists The cast light on why our Unionists and nationalists feel so sure their side represents our national identity and the other lot doesn't For once it is a compliment to say a book raises more questions than it answers Stephen Reicher and Nick Hopkins open up large questions closer inspection Glasgow Herald In this impressive book Stephen Reicher and Nick Hopkins draw from a wealth of research to address issues of nationality national identity and nationalism that lie at the heart of core topics in social psychology and its cognate disciplines They have produced a powerful and scholarly text that interweaves an abundance of rich empirical data with a broad reaching and timely theoretical statement Moreover the content is not confined to matters of national identity but also extends to treatments of stereotyping prejudice intergroup conflict leadership collective action and the self For all these reasons the book should serve essential and compelling reading for a very broad audience S Alexander Haslam Australian National University Stephen Reicher and Nick Hopkins write with elegance and clarity drawing the reader into their argument without losing any of its complexity and nuance This book deserves to make a major impact in studies of nationalism It ought to become a classic I'm quite bowled over it's really brilliant David McCrone Edinburgh University

Self, War, and Society Mary Jo Deegan, 2017-09-08 George Herbert Mead 1863-1931 is a founding figure in the field of sociology His stature is comparable to that of his contemporaries Emile Durkheim and Max Weber Mead's contribution was a profound and unique American theory that analyzed society and the individual as social objects As Mead saw it both society and the individual emerged from cooperative democratic processes linking the self the other and the community Mary Jo Deegan a leading

scholar of Mead's work traces the evolution of his thought its continuity and change She is particularly interested in the most controversial period of Mead's work in which he addressed topics of violence and the nation state Mead's theory of war peace and society emerged out of the historical events of his time particularly World War I During this period he went from being a pacifist along with his contemporaries John Dewey and Jane Addams to being a strong advocate for war From 1917 1918 Mead became a leader in voicing the need for war based on his theory of self and society After the war he became disillusioned with President Woodrow Wilson with Americans failure to support mechanisms for international arbitration and with the political reasons for American participation in World War I He returned to a more pacifist and co operative model of behavior during the 1920s when he became less political more abstract and more withdrawn from public debate The book includes Deegan's interpretation of Mead's early social thought his friendship and family networks the historical context of America at war and the importance of analysis of violence and the state from Mead's perspective She also provides illustrative selections from Mead's work much of which was previously unpublished

First Nations Self-Government Leroy Wolf Collar, 2020-01-17 Indigenous Peoples in Canada are continuing to assert their right to self determination in this era of reconciliation While dozens of Indigenous communities have signed varying forms of self government agreements with the federal government Indigenous Nations still face many obstacles along the path to true self determination As a former Chief of Siksika Nation in southern Alberta Leroy Wolf Collar dealt with many of the same problems other Indigenous Nations face across the country From serious housing shortages to the lack of opportunities for youth Chief Wolf Collar experienced the challenges and frustrations that come from operating in a colonial system still constrained by the Indian Act How do Indigenous Peoples move on from this defective system Chief Wolf Collar identifies 17 issues that currently hinder Indigenous Nations including broken treaty promises problems with common forms of band administration and the intrusion of provincial governments along with potential solutions to overcome them This guide is for current and aspiring Indigenous leaders who want to increase their understanding of good governance management and leadership as well as those who want to explore issues around Indigenous self determination in Canada **Self, Nation, Text in Salman Rushdie's**

"Midnight's Children" Neil ten Kortenaar, 2004-01-21 Many non Indian readers find the historical and cultural references in Salman Rushdie's *Midnight's Children* demanding In his close reading of the novel Neil ten Kortenaar offers post colonial literary strategies for understanding *Midnight's Children* that also challenge some of the prevailing interpretations of the novel Using hybridity mimicry national allegory and cosmopolitanism all key critical concepts of postcolonial theory ten Kortenaar reads *Midnight's Children* as an allegory of history as a Bildungsroman and psychological study of a burgeoning national consciousness and as a representation of the nation He shows that the hybridity of Rushdie's fictional India is not created by different elements forming a whole but by the relationship among them **Self Nation Text in Salman Rushdie's** *Midnight's Children* also makes an original argument about how nation states are imagined and how national consciousness

is formed in the citizen The protagonist Saleem Sinai heroically identifies himself with the state but this identification is beaten out of him until in the end he sees himself as the Common Man at the mercy of the state Ten Kortenaar reveals Rushdie's India to be more self-conscious than many communal identities based on language it is an India haunted by a dark twin called Pakistan a nation in the way England is a nation but imagined against England Mistrusting the openness of Tagore's Hindu India it is both cosmopolitan and a specific subjective location *National Self-determination and Secession* Margaret Moore (Ph. D.), 1998 In recent years numerous multi-national states have disintegrated along national lines and today many more in both the first and the third worlds continue to witness bitter secessionist struggles The proliferation of national conflicts and secessionist movements has given rise to many important questions which urgently need to be addressed When is secession justified What is a people and what gives them a right to secede Is national determination consistent with liberal and democratic principles Or is it a dangerous doctrine In the years following 1991 when Allen Buchanan published *Secession* a number of competing theories of the ethics of secession have been put forward This pathbreaking study by a host of leading figures in the field brings together for the first time a series of original essays on these theories Offering fresh insight into debates about contested territory the problem of minorities and the place of secession in resolving national conflicts this volume provides a much needed philosophical discussion of the normative implications of nationalism

S. 2132, Indian Tribal Energy Development and Self-Determination Act Amendments of 2014 United States. Congress. Senate. Committee on Indian Affairs (1993-), 2014 Open Self-reliant Regionalism Li Choy Chong, 1981 This book is addressed to the problem of Southeast Asia's powerlessness in relation to the control over developmental resources Based on a discussion of previous conceptions and the reality of the relationship between development and international relations in Southeast Asia a theory of international power and relation which determines resource allocation and hence developmental capacity is evolved Unlike the conception of power in other theories this theory differentiates between two generic types of power namely systemic power which is based on dependence implied in the system of international relations and asystemic power which is based on various attributes of nations From this theory the strategy of open self-reliant regionalism is developed and applied to ASEAN This strategy manipulates international balances of powers and dependence in order to benefit ASEAN Through the application of this strategy ASEAN countries may be able to obtain the capacity to control more developmental resources and hence to apply them for their own development *H.R. 3994, Department of the Interior Tribal Self-Governance Act of 2007* United States.
