The Selling of Fidel Castro William E. Ratliff, 1987 *The Selling of Fidel Castro* William E. Ratliff, 1987 **The Selling of Fidel Castro** William E. Ratliff, Six essays explore the curiosities of media fascination with Fidel Castro a phenomenon the authors believe is accounted for in part by the fact that Castro has an instinctive talent for personal and media manipulation A useful preface forms a backdrop putting Cuban realities into accurate perspective so that they contrast all the more strangely with the sometimes mythic media treatment *Cuban Studies 16* Carmelo Mesa-Lago, 1986-12-01 Cuban Studies has been published annually by the University of Pittsburgh Press since 1985 Founded in 1970 it is the preeminent journal for scholarly work on Cuba Each volume includes articles in both English and Spanish a large book review section and an exhaustive compilation of recent works in the field *Cuban Studies 18* Carmelo Mesa-Lago, 1988-10-01 Essays in volume 18 include discussions of Cuba's approach to the Latin American debt crisis its two century old race problem and its impact on Cuba's relations with Africa differences between urban and rural living conditions and development and the recent housing situation in Cuba Examinations of scholarly research include a survey of major historical works on Cuba over the past twenty five years and an analysis of how the revolution has affected the scholar's craft and access to manuscripts and archives The Debate section features comments on discussions in Cuban Studies 17 of sex and gender relations in today's Cuba as well as the ongoing issue of Cuba's economic planning and management system

Selling Snake Oil Mo Lidsky, 2019-10-24 *Selling Snake Oil* is sensational confrontation with the masterminds of the world's most innovative and astonishing investment frauds This book offers a glimpse into the ingenuity psychology and strategies of history's most effective swindlers who successfully duped US presidents savvy CEOs seasoned investment professionals and everyday investors like you and me The cases are as real as the victims that lay in their waste But most important are the eternal lessons they left behind This book is as entertaining as it is actionable with every story offering readers another layer of protection in their efforts to ward off the charlatans of the future You will travel from the shores of Antigua to the farms of Ontario from the Eiffel Tower to small town America and into the sanctuaries of Wall Street The stories will carry you across the broadest gamut of geographic and historical narratives All of which with the singular objective of helping you avoid the next snake oil salesman *Cuban Studies 19* Carmelo Mesa-Lago, 1989-11-01 Cuban Studies has been published annually by the University of Pittsburgh Press since 1985 Founded in 1970 it is the preeminent journal for scholarly work on Cuba Each volume includes articles in both English and Spanish a large book review section and an exhaustive compilation of recent works in the field *Selling War to America* Eugene Secunda, Terence P. Moran, 2007-08-30 Battles are won in combat Wars are won by winning the hearts and minds of the people *Selling War to America* provides a thought provoking look at the propaganda efforts the U S government has exerted to that end It begins with an examination of the government's campaign to instigate a war with Spain and ends with a review of the methods being used to encourage support for the War Against

Terrorism The book analyzes each of these wars within the context of the techniques used to generate public support also examining the results of propaganda efforts both before and after each conflict From these historical analyses noting both the blunders and the triumphs of the past century the authors offer the keys to successfully persuading the American public to support wars that must be fought Lies were told and truths withheld because government and military leaders did not trust the American people to make appropriate decisions concerning our national security The attacks of September 11 2001 on The World Trade Center Towers and the Pentagon have summoned the American people to a war on terrorism The U S government is now trying to mobilize American public opinion to support this war But this is just the most recent example of how our government has sought to enlist broad public support for the wars it has waged The job of informing and persuading America to support its war efforts has become increasingly more challenging as media technologies like instant global coverage of television news and the Internet reach into every American home

We Sell Drugs Suzanna Reiss, 2014-08-01 This history of US led international drug control provides new perspectives on the economic ideological and political foundations of a Cold War American empire US officials assumed the helm of international drug control after World War II at a moment of unprecedented geopolitical influence embodied in the growing economic clout of its pharmaceutical industry We Sell Drugs is a study grounded in the transnational geography and political economy of the coca leaf and coca derived commodities market stretching from Peru and Bolivia into the United States More than a narrow biography of one famous plant and its equally famous derivative products Coca Cola and cocaine this book situates these commodities within the larger landscape of drug production and consumption Examining efforts to control the circuits through which coca traveled Suzanna Reiss provides a geographic and legal basis for considering the historical construction of designations of legality and illegality The book also argues that the legal status of any given drug is largely premised on who grew manufactured distributed and consumed it and not on the qualities of the drug itself Drug control is a powerful tool for ordering international trade national economies and society s habits and daily lives In a historical landscape animated by struggles over political economy national autonomy hegemony and racial equality We Sell Drugs insists on the socio historical underpinnings of designations of legality to explore how drug control became a major weapon in asserting control of domestic and international affairs
