Excerpt: bill must be filed within one year after the marriage. The property so forfeited is to go to the innocent party. The statute declares where persons knowingly and wilfully marry in any place other than a church or public chapel wherein banns may be published without a special license or shall knowingly marry without due publication of banns or the obtaining of a license from the proper authorities or acquiesce in the solemnization of the marriage by one not in orders, the marriage shall be null and void to all intents and purposes whatsoever. The clause of Statute 26 George II that no suit shall lie in an ecclesiastical court for the purpose of compelling a marriage in *fade ecclesiae* by reason of any promise *per verba de praesenti* or *per verba de futuro* was re-enacted. There are also numerous provisions relating to the registration of marriages by the persons competent to solemnize them. The statute exempts Quakers and Jews from its operation. All these acts be it remembered refer to England only. The next Act relating to marriage is that of 6 & 7 William IV Chap 85 1836. This law marks an epoch in the history of English marriage legislation. It was felt that something must be done to permit dissenters to marry according to their own fashion. Even to the clergymen of the Established Church there was something unpleasant in being compelled to unite people by means of forms and ceremonies for which they had not the slightest reverence. Lord John Russell introduced the bill, the object of which he said was to permit every one to be married according to whatever form his conscience dictated. Some of the members thought that the bill went too far in establishing a purely civil form of marriage for those desiring it. This they

Historical Comparative Law and Comparative Legal History

Legal history and comparative law overlap in important respects. This is more apparent with the use of some methods for comparison such as legal transplant, natural law, or nation building. M. N. S. Sellers nicely portrayed the relationship. The past is a foreign country; its people strangers and its laws obscure. No one can really understand her or his own legal system without leaving it first and looking back from the outside. The comparative study of law makes one's own legal system more comprehensible by revealing its idiosyncrasies. Legal history is comparative law without travel. Legal historians perhaps especially in the United States have been skeptical about the possibility of a fruitful comparative legal history, preferring in general to investigate the distinctiveness of their national experience. Comparatists, however, content with revealing or promoting similarities or differences between legal systems by their nature strive toward comparison. Some American historians especially since World War II see the value in this.
