Marriage And The Family In Eighteenth Century France:

Marriage and the Family in Eighteenth-century France James F. Traer, 1980 *Marriage and the Family in Eighteenth-century France* James F. Traer, 1980 *Visions and Revisions of Eighteenth-Century France* Christine Adams, Lisa Jane Graham, Jack R. Censer, 2005-08-18 This volume brings together eight essays all but one previously unpublished that offer innovative strategies for studying society and culture in eighteenth century France Divided into three sections the chapters map out current research paths in social cultural and political history The authors engage the most heated subjects of debate in the field today including the changing nature of political life in the age of Enlightenment the role of public opinion in undermining absolutism and the impact of gender on social relationships and political language in the late eighteenth century They demonstrate a marked interest in the lives of ordinary and humble French people finding that exclusion from the main corridors of power fostered cunning and resourcefulness not political indifference or ignorance The articles encompass the Old Regime and the revolutionary era without falling into the teleological trap of using the former as the backdrop for the events of 1789 On the contrary many of the authors consciously avoid this bias by investigating the Old Regime in its own right or by consciously linking the pre and postrevolutionary eras This decision alone marks an important turning of the tide By establishing a dialogue between the Old Regime and the revolution this volume implicitly pays homage to those historians who insist on the structural continuities that underlay the rupture of 1789 Contributors are Cissie Fairchilds Christine Adams Orest Ranum Lisa Jane Graham Harvey Chisick John Garrigus Lenard Berlanstein and Jack Censer **Masculinity and Male Codes of Honor in Modern France** Robert A. Nye, 1998-11-30 In this study of upper class masculinity from the end of the ancien r gime in 1789 to the end of World War I Robert Nye argues that manhood masculinity and male sexuality is like femininity a cultural construct comprising a strict set of heroic ideals and codes of honor which few men have been able to realize in practice In doing so Nye destabilizes and historicizes the male body and incorporates gender into the brand of cultural history inaugurated by Norbert Elias in the 1930s **Family, Gender, and Law in Early Modern France** Suzanne Desan, Jeffrey Merrick, 2010-11-01 *Convents and Nuns in Eighteenth-Century French Politics and Culture* Mita Choudhury, 2018-07-05 Representations of convents and nuns assumed power and urgency within the volatile political culture of eighteenth century France Drawing from a range of literary cultural and legal material Mita Choudhury analyzes how between 1730 and 1789 lawyers religious pamphleteers and men of letters repeatedly asked Who should control the female convent and women religious These sources chronicled the conflicts between nuns and the male clergy among nuns themselves and between nuns and their families conflicts that were presented to the public in the context of potent issues such as despotism citizenship female education and sexuality The cloister operated as a symbol of despotism the equivalent of the Sultan s seraglio or the King s Bastille Before 1770 lawyers and magistrates praised nuns as the personification of virtuous Christian women often victims vulnerable to those who would use them to further their own

political ends After 1770 men of letters evaluated nuns according to more secular norms and concluded that the convent had no purpose in society except as a reminder of the problems inherent in the Old Regime Choudhury elaborates on how nuns were not always passive entities mere objects to be shaped by the political needs of others But because they relied on men in order to make their voices heard the place of women religious in the public sphere was a complex one based on negotiations between female action and male subjectivity During the French Revolution whatever support they had enjoyed was lost as republicans and moderates began to see nuns as potentially disruptive to the social order family life and revolutionary values

Revolutionary Love in Eighteenth- and Early Nineteenth-Century France Allan H. Pasco, 2016-12-05 In this innovative study the author carves out a new field a sociology of literature in which he offers insightful commentary about the nexus of literature and society Calling on history sociology and psychology as well as literature as points of reference Allan Pasco examines the conceptual shift in the ideal of love in eighteenth century France Pasco explores the radical though gradual changes that occurred during the Enlightenment with respect to how the emotion of love was viewed Earlier love had been subordinate to the demands of family king and deity passion was dangerous and to be avoided But over time individual happiness became the greatest good and passion the measure of love Authors as diverse as Marivaux Marmontel Rousseau Bachelard d'Arnaud Pigault Lebrun and Madame de Staël make it clear that the ideal of rapturous love did not live up to its billing it did not last and it brought destructive fantasies an epidemic of disease the scourge of divorce and considerable anguish Still as Pasco points out passion became and remained the ideal and the Romantics were left to plumb its nature

France and Women, 1789-1914 James McMillan, Professor James F Mcmillan, 2002-01-08 France and Women 1789 1914 is the first book to offer an authoritative account of women's history throughout the nineteenth century James McMillan author of the seminal work *Housewife or Harlot* offers a major reinterpretation of the French past in relation to gender throughout these tumultuous decades of revolution and war This book provides a challenging discussion of the factors which made French political culture so profoundly sexist and in particular it shows that many of the myths about progress and emancipation associated with modernisation and the coming of mass politics do not stand up to close scrutiny It also reveals the conservative nature of the republican left and of the ingrained belief throughout French society that women should remain within the domestic sphere James McMillan considers the role played by French men and women in the politics culture and society of their country throughout the 1800s

Society and Economy in Early Modern Europe, 1450-1789 Barry Taylor, 1989

Church and Society in Eighteenth-century France John McManners, 1999 This second volume begins with a Section on the religion of the people The clergy offered the liturgical services sermons evangelistic missions and the offices sanctifying birth marriage and death distinctions are made between what they intended and how their ministrations were popularly interpreted and incorporated into the social order Statistical soundings concerning the extent of religious practice and the degree of conviction involved are evaluated Further chapters deal with processions

pilgrimages and popular practices and superstitions with hermits and confraternities with the impact of reading the Bible and other edifying literature in an age of increasing literacy Finally comes a view of the twilight world of magic and sorcery Throughout this Section the comments of theologians and thinkers of the Enlightenment are recorded whether in coincidence or contradiction The next section deals with the efficacy of the confessional and the role of the casuistry of the Church in attempting to mould sexual mores business practices and in the world of the theatre In the next two Sections the role of religious issues in political affairs is detailed An overview of the Jansenist quarrel and of the activities of the Jesuits brings in the story of the struggle between Crown and Parlement while an extended portrayal of the life of the Protestant and Jewish communities leads to the history of the debate on toleration involving the Gallican Church in political interventions and controversy Throughout the two volumes the rising forces of anticlericalism and the tensions within the ecclesiastical establishment have been recorded and these themes come to their climax in a final section on the role played by churchmen in the coming of the Revolution

Historical Anthropology of the Family Martine Segalen, 1986-11-28 Over the past decade or so the social scientific sociological analysis of the family has been obliged to reconsider its traditional view that industrialisation triggered a shift within society from the large family which fulfilled all social functions from socialising the children to caring for the sick and the old to the modern nuclear family which was regarded solely as being the locus for emotional relationships Historians have shown that in the past there was a variety of family structures within a range of varying demographic economic and cultural frameworks distinctive for each society At the same time the interaction between sociology and social anthropology has led to a clearer conceptual analysis of that vague polysemic term family and notions of dwelling place descent marriage the relative roles of husband and wife and parent child relations as well as the more general relations between generations have in a variety of past and present social contexts been taken apart and analysed In this book the author synthesises European and North American historical and social anthropological material on the family that shows the reversal of the frequently held view of the family as an institution in decline showing it instead to be both dynamic and resistant

Religion and Royal Justice in Early Modern France Diane C. Margolf, 2004-01-01 Diane Margolf looks at the Paris Chambre de l'Edit in this well researched study about the special royal law court that adjudicated disputes between French Huguenots and the Catholics Using archival records of the court's criminal cases Margolf analyzes the connections to three major issues in early modern French and European history religious conflict and coexistence the growing claims of the French crown to define and maintain order and competing concepts of community and identity in the French state and society Based on previously unexplored archival materials Margolf examines the court through a cultural lens and offers portraits of ordinary men and women who were litigants before the court and the magistrates who heard their cases

The House in the Rue Saint-Fiacre H. B. Callaway, 2023-05-09 Officially revolutionary France granted all citizens a right to property In practice however there was significant continuity with the Old Regime H B Callaway argues that the state s fraught attempts to confiscate property from Parisian migr s reveal contradictions in ideas of ownership considered foundational to modern property rights

The Family on Trial in Revolutionary France Suzanne Desan, 2006-06-19 Annotation A sophisticated and groundbreaking book on what women actually did and what actually happened to them during the French Revolution

"Interior Portraiture and Masculine Identity in France, 1789-1914" Heather Belnap Jensen, 2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book s premise that the alignment of men with public life is oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789 1914 provides a much needed rethinking of modern masculinity in this period

Husbands, Wives, and Lovers Patricia Mainardi, 2003-01-01 In this interdisciplinary exploration of the cultural and social history of early 19th century France Patricia Mainardi focuses on what was considered a major social problem of the time adultery In a period when expectations about marriage were changing the problems of husbands wives and lovers became a major theme in theatre literature and the visual arts The author demonstrates that this intense interest was historically grounded in the post revolutionary collision between the new concept of the individual s right to happiness

and the traditional prerogatives of family and state duty or happiness more important Are arranged marriages doomed to be empty of love and poisoned by adultery Should adulterous wives and their lovers be punished while husbands may commit adultery with impunity Out of such legal social and cultural debates ultimately emerged modern bourgeois family values Mainardi argues And she illuminates how art in all its varieties both influences and is influenced by social change Women Moralists in Early Modern France Julie Candler Hayes, 2024-01-03 Julie Candler Hayes explores the contributions of seventeenth and eighteenth century French women philosophers and intellectuals to moralist writing a genre focusing on dispassionate observations on the human condition and traditionally viewed through its best known male writers This study the first of its kind includes both famous thinkers such as milie Du Ch telet and Germaine de Sta l and nearly two dozen of their contemporaries Hayes demonstrates how through their critique of institutions and practices their valorization of introspection and self expression and their engagement with philosophical issues women moralists carved out an important space for the public exercise of their reason
