What are marriage difficulties really all about This fundamental question and the allied one of how help can be given to those in trouble in their marriages constitute the theme of this book Originally published in 1960 the authors were a group of caseworkers who over the previous ten years had treated and studied the problems of about 2 000 married couples They worked as a closely knit specialist unit in co operation with psychiatric consultants from the Tavistock Clinic The work is based on the psycho analytic theory of personality development and human relationships This theory is supported by five detailed case studies which form the central part of the book The main purpose is to demonstrate the particular therapeutic technique which has been evolved The book would have been of interest to social workers doctors and all who were concerned to make marriages as rich a source of happiness as possible at the time Today it can be read and enjoyed in its historical context Routledge International Handbook of Migration Studies Steven James Gold, Stephanie J. Arranged Marriage The Politics of Tradition Resistance and Change shows how arranged marriage practices have been undergoing transformation as a result of global and other processes such as the revolution of digital technology democratization of transnational mobility or shifting significance of patriarchal power structures The ethnographically informed chapters not only highlight how the gendered and intergenerational politics of agency autonomy choice consent and intimacy work in the contexts of partner choice and management of marriage but also point out that arranged marriages are increasingly varied and they can be reshaped reinvented and reinterpreted flexibly in response to individual family religious class ethnic and other desires needs and constraints The authors convincingly demonstrate that a

nuanced investigation of the reasons complex dynamics and consequences of arranged marriages offers a refreshing analytical lens that can significantly contribute to a deeper understanding of other phenomena such as globalization modernization and international migration as well as patriarchal value regimes intergenerational power imbalances and gendered subordination and vulnerability of women
