*The Marriageable Daughter* Daniel Gagnon, 1989      **Re-covering the Daughter's Nakedness** Madeline Gay McClenney-Sadler, 2007-08-10 In order to assess the purpose and function of the incest narratives in the Pentateuch and the incest prohibitions of Leviticus 18 McClenney Sadler's book offers a formal examination of ancient Israelite kinship terminology According to anthropologists only through a formal analysis of kin terms can incest prohibitions be properly understood A formal analysis of kinship terms is a method employed by ethnographers to compare the kinship system of any given society with one of the six conventionally recognized kinship systems worldwide There are very specific culturally patterned and expected behaviors that every society adopts in relation to post marital residence rules of descent kinship terminology and incest prohibitions These patterns are socially conditioned and eventually produce either of the six kinship systems A close reading of the biblical textual evidence in light of Syro Palestinian archaeology allows us to conclude that the kinship system of ancient Israel was Normal Hawaiian Furthermore the internal logic and structure of Leviticus 18 becomes clear once we recognize that descent is not biological but jural in nature Reading Leviticus 18 with this idea in view we find that a Normal Hawaiian kinship system is reflected in both the Genesis incest narratives and the legal form of Leviticus 18 A hierarchy of kinship becomes transparent in the form and structure of Leviticus 18 In particular we see in this form that wives and mothers were treated as heads of family in biblical law and endowed with spousal and parental rights and authority over every other family member not only in incest laws but in all matters The jural authority of mothers and wives is structurally represented as second only to that of Yahweh      [Child Marriage in Türkiye](#) Esra Bayhantopçu, 2024-04-18 This book provides a critical examination of the problem of underage marriage in Türkiye through a sociological perspective considering gender perceptions cultural norms and historical and political contexts The author conducts a comprehensive analysis of the problem by focusing on the lived experiences and narratives of women who married before the age of 18 Face to face in depth and semi structured interviews were conducted with 22 women who married at a child age to identify the causes and consequences of the marriage of underage girls and to explore how these women perceive both their own identities and the broader issue of child marriage Employing critical discourse analysis the author scrutinizes these interviews through the theoretical lenses of gender identity and ideology all while remaining attuned to feminist perspectives These combined methodologies allow the author to reveal the hidden dimensions of the problem examining the feelings stories behaviours and beliefs of real women who have married as children Finally constructive solutions are proposed for the elimination of the child marriage problem not only in Türkiye but in countries across the world The book will interest those working and studying in an array of fields including sociology gender studies and Turkish culture and society as well as anyone with a general interest in the problem of underage marriage      **Marriage and the Child** James H.
