Nava--Vēda: Purusha and prakrita (God and nature). 1st ed. 1968 M. B. Raja Rao,1968 **Complete Arcana of Astral Philosophy, Or the Celestial Philosopher, Being Genethliology Simplified, Or the Doctrine of Nativities, to which is Added the Ruling of the Microcosm** William Joseph Simmonite,1890

W.J. Simmonite's Complete arcana of astral philosophy; or The celestial philosopher. To which is added The ruling of the microcosm (by J. Story). William Joseph Simmonite,1890 Longevity: a Vedic Approach Raj Kumar, The correct judgement of longevity is highly complex but is equally important and sought after Knowing longevity is difficult even for gods said sage Parashar Any prediction made without considering it may make the prediction a laughing stock of both the astrologer and astrology The time span between birth and death of a native is called his longevity Longevity and death are not the same but are closely related However it is not yet clear what death is Our scriptures have at various places equated death with different types of Mrityu Tulya agonies which are different from physical death Again the destiny of each one of us is interlinked with our close kith and kin and our relationship with them is pre determined predestined and irrevocable Death is severing of final link of a native with them Hence a native's death must get corroborated confirmed in the horoscopes of his close relations An attempt is made in this book to address all such issues The book is a study of about 225 natives who had lived and died in different countries at different time at different age and of different causes applying known tools of astrology The book is an attempt to help clear some mist and enable to have a better judgement of longevity *Be Your Own Astrologer Ascendant - Libra* Bhojraj Dwidevi,2004 *Light on Life* Hart De Fouw,Robert Svoboda,2003 *Light on Life An*

Introduction to the Astrology of India Light on Life brings the insight and wisdom of Indian astrology to the Western reader Jyotish or Indian astrology is an ancient and complex method of exploring the nature of time and space and its effect upon the individual Formerly a closed book to the West the subject has now been clarified and explained by Hart de Fouw and Dr Robert Svoboda two experts and long term practitioners In Light on Life they have created a complete and thorough handbook that can be appreciated and understood by those with very little knowledge of astrology *Gulliver's travels, exactly repr. from the 1st ed., and other works, with some account of Cyrano de Bergerac and of his Voyages to the sun and moon, ed. by H. Morley* Jonathan Swift,1890 **The Publishers' Circular and Booksellers' Record** ,1929 **Astrologia Gallica Books 13, 14, 15, 19** Jean Baptiste Morin,2007-03 This volume contains an English translation of Books 13 14 15 and 19 of the Astrologia Gallica in which Morin explains the strengths of the planets the division of the sky into celestial houses the essential dignities of the planets and the principles of judgment These are fundamentals of horoscopic astrology Morin was a physician who became the most renowned of all French astrologers He was appointed Royal Mathematician to King Louis XIII and was present at the birth of the future King Louis XIV The Sun King His massive Latin work Astrologia Gallica was published in folio at the Hague in 1661 The present volume continues the series of English translations of those books of the Astrologia Gallica that are primarily devoted to astrological techniques With its publication Books 13 14 15 18 19 21 22 23 and 24 are now available in English Humanism in Surgery Jonathan McFarland,Susana Magalhaes,Jacek Mostwin,René Genadry,2025-08-12 Medical Humanities and Narrative Medicine have been increasingly relevant in view of the challenges that new health technologies and the digital world pose to truly person centered healthcare By Narrative Medicine we understand the practice of healthcare with narrative skills that allow professionals to recognize the suffering of others and of themselves be able to interpret verbal and non verbal narratives of illness and be motivated to act in a way that respects the Person of the Patient and of the Professional Surgery like other medical specialties requires space for reflection and debate on the meaning of humanism and its impact on the quality of care This requirement is more pressing in this area because it has escaped inquiry by Medical Humanities and Narrative Medicine We believe that this is due to the nature of the surgical activity carried out in an enclosed place characterized by the use of sophisticated technologies including robotics and artificial intelligence and inaccessible to patients relatives In addition the patients own expectations about surgery reinforce the technological and highly specialized nature of this area often marked by the neglect of the relational context with clear prejudice to the parties involved and the activity itself Although this gap has been identified there has been no space for reflection on the humanization of care in surgery This book is therefore innovative precisely because it responds to the previously mentioned shortcomings offering its readers the opportunity to reflect on Humanism in Surgery
