*A Princess of Mars (100 Copy Collector's Edition)* Edgar Rice Burroughs, 2019-11-19

When John Carter goes to sleep in a mysterious cave in the Arizona desert, he wakes up on the planet Mars. There he meets the fifteen-foot-tall, four-armed green men of Mars with horse-like dragons and watchdogs like oversized frogs with ten legs. Full of swordplay and daring feats, *A Princess of Mars* is considered a classic example of 20th-century pulp fiction. It is also a seminal instance of the planetary romance, a subgenre of science fantasy that became highly popular in the decades following its publication. Edgar Rice Burroughs' vision of Mars was loosely inspired by astronomical speculation of the time, especially that of Percival Lowell, who saw the red planet as a formerly Earth-like world now becoming less hospitable to life due to its advanced age. Burroughs predicted the invention of homing devices, radar, sonar, autopilot, collision detection, television, teletype, genetic cloning, living organ transplants, antigravity propulsion, and many other concepts that were well ahead of his time. The books in the Barsoom series were an early inspiration to many, including science fiction authors Robert A. Heinlein, Arthur C. Clarke, and Ray Bradbury. They influenced renowned scientist Carl Sagan in his quest for extraterrestrial life and were instrumental in the making of James Cameron's *Avatar* and George Lucas' *Star Wars*. This cloth-bound book includes a Victorian-inspired dust jacket and is limited to 100 copies.
