suggest that it is increasingly necessary for us to live consciously with this veiled history of humanity's continual search for communion with the divine world. Based on long research and contemplation, the authors present a survey of extraordinary breadth and depth. Focusing on the spiritual history of humankind, they begin with the cosmic origin of the Grail Mysteries and culminate with the suprasensory Michael cultus and the being of Anthroposophia. Topics also include the school of Athens, early Christian art and its Gnostic impulses, the Grail initiation in northern Spain, the role of the Cathars and Troubadours in the Manichean spiritual stream, the Camino to Santiago de Compostela and the esoteric aspect of music for the pilgrims, the Music of the Spheres and the Elders of the Apocalypse, the Templars as emissaries of the Holy Grail, the initiations of Christian Rosenkreutz and his relation to anthroposophical art, the early Rosicrucian impulses in America and Europe, and much more.

Catastrophobia Barbara Hand Clow, 2001-05-01. Bestselling author Barbara Hand Clow examines legendary cataclysms and shows how we are about to overcome the collective fear they have instilled in us. The long-awaited follow-up that continues the revelations begun in *The Pleiadian Agenda*, which has sold more than 60,000 copies. Explains why, contrary to many prophets of doom, we are actually on the cusp of an era of incredible creative growth. The recent discovery of the remains of ancient villages buried beneath the Black Sea is the latest instance of mounting evidence that many of the mythic catastrophes of history, the fall of Atlantis, the Biblical Flood, were actual events. In *Catastrophobia*, Barbara Hand Clow shows that a series of cataclysmic disasters caused by a massive disturbance in the Earth's crust 11,500 years ago rocked the world and left humanity's collective psyche permanently scarred. We are a wounded species, and this unprocessed fear passed from generation to generation is responsible for our constant expectations of apocalypse from Y2K to the famed end of the Mayan calendar in 2012. *Catastrophobia* reveals the insidious global forces that have used these collective fears to control humanity for thousands of years. But we are in the midst of a tremendous shift in the Earth's 26,000-year precessional cycle, and there is every indication that the changes in consciousness over the last 30 years are the beginnings of a collective healing from these deep fears, heralding a new age where we will see that the era of cataclysms is ending and a time of extraordinary creative activity is at hand.

The New Mysteries and the Wisdom of Christ Virginia Sease, Manfred Schmidt-Brabant, 2005. Christianity is not a matter of a religion or even a denomination; it is not a question of a particular culture. Christ is there for all humanity. From the book: In the old mystery cultures, individuals experienced themselves as children of the gods or even as their instruments. According to Rudolf Steiner's spiritual science, the birth of independent thinking did not arise until our present state of consciousness, the awareness of one's individual self. But who is this I? Virginia Sease and Manfred Schmidt-Brabant maintain that true self-knowledge is intimately related to knowledge of the central being of world evolution, Christ, the I AM. Focusing on the being of Christ and on Christianity, the authors present a series of engaging lectures on the development of mystery wisdom today. Having given an overview of the history of the mysteries in their book *Paths of the Christian Mysteries*, the authors deepen and expand their study by drawing particular

attention to the effect of the Christ mysteries Some essential themes of this new volume include the transformation of conscience the place of prayer and meditation and the significance of sacrifice today **The Stargate Conspiracy** Lynn Picknett,2001-09-01 In recent years alternative historians have gained remarkable insight into the mysteries of ancient Egypt but according to Lynn Picknett and Clive Prince their discoveries tie into a dangerous conspiracy nearly fifty years in the making At the center of this conspiracy is a group of respected powerful individuals who believe that the ancient Egyptian gods are really extraterrestrials who will soon return to earth The conspirators have intimate and exclusive knowledge of this momentous second coming but they insist on keeping it to themselves What could be the purpose of such a conspiracy Why are the conspirators so desperate to keep their information a secret And what does it mean for mankind In this riveting well researched book Picknett and Price offer compelling evidence that the conspiracy exists and expose the insidious motivations of the individuals and organizations behind it **Mysteries of Mars** Rebecca E.
