Soviet Views on National Security Issues in the 1990s United States. Congress. House. Committee on Armed Services, 1989 **The Fading Threat** ,1990 *Soviet Views of National Security Issues in the 1990s* United States. Congress. House. Committee on Armed Services, 1989 **Air Force Magazine** ,1985 Soviet Nuclear Weapons Policy William C. Green, 2019-07-11 This research guide is intended primarily for two groups of specialists The first consists of Sovietologists interested in acquiring a more complete knowledge of Soviet strategic and military policy The second includes strategic analysts interested in expanding their expertise to cover Soviet strategy and thinking However it was assembled so as to be useful as well for non specialists interested in investigating Soviet nuclear weapons policy Approaches to Naval Arms Control United States. Congress. Senate. Committee on Armed Services. Subcommittee on Projection Forces and Regional Defense, 1990 **Second-hand Time** Svetlana Alexievich, 2016 Nobel Prize winner Svetlana Alexievich invents a new genre of narrative non fiction as she writes the life stories of housewives artists party workers students soldiers traders living through a time of political upheaval the fall of the Soviet Union and the two decades that followed it War Scare Peter Pry, 1999-09-30 Why do some American intelligence officials maintain fallout shelters and private contingency plans to evacuate their families in the event of a Russian nuclear strike even in today s post Cold War era of U S Russian partnership The frightening answer lies within the pages of War Scare a terrifying assessment of the prospect for nuclear holocaust in our day Written by Peter Vincent Pry a former CIA military analyst War Scare provides a history of our country s little known brushes with nuclear war and warns that contrary to popular opinion and the assurances of our political leaders the possibility of a Russian attack still exists Nuclear deterrence has been the foundation of Western security for the last 50 years but since the end of the Cold War Russian military doctrine has become more destabilizing and much more dangerous than is commonly believed By making use of a wealth of declassified and unclassified material Dr Pry illustrates how Russia s brutal past continues to shape the consciousness and decision making of its leaders many of whom are unreconstructed ideologues from the old Soviet regime Gripped by a perpetual perception of imminent threat a war scare the Russian General Staff which controls the technical capability of launching a nuclear strike has shown itself to be unstable at best The author explores recent history and near disasters such as the Bosnian crisis the Norway missile incident and U S air strikes on Iraq from the perspective of the Russian General Staff believing that only by understanding their viewpoint can we minimize the risk of unintentionally provoking a deadly attack Wary of NATO expansion and reeling from the Russian economy s descent into chaos the General Staff may interpret Western military exercises and operations in the Middle East and elsewhere as concealing surprise aggression against Russia This is a grave situation indeed as even after the START I II and III agreements Russia will retain enough nuclear weapons to destroy the world not to mention significantly expanded chemical and biological warfare capability War Scare convincingly shows that we ignore these facts at our peril All Hands ,1988

Lieutenant General Edward L. Rowny, Former Ambassador Edward L. Rowny, 1995 **At the Highest Levels** Michael Beschloss, Strobe Talbott, 2016-08-16 The landmark story of Bush Gorbachev diplomacy No one has ever given as complete and compelling an account of the higher reaches of foreign policy Time December 1989 The Berlin Wall had fallen Millions across the Eastern Bloc were enjoying new freedoms And the USSR was falling apart But the peaceful end of the Cold War was far from assured requiring the leaders of rival superpowers to look beyond the animosities of the past and embrace an uncertain future At the Highest Levels is the fascinating story of that unlikely partnership a real time expos of the negotiations between US President George H W Bush and Soviet Premier Mikhail Gorbachev Granted extraordinary access to private conversations and closed door meetings at the Kremlin White House Pentagon CIA and KGB Michael Beschloss and Strobe Talbott reveal the high stakes international diplomacy that ended the nuclear arms race and decades of proxy wars The result is an accurate first draft of the Cold War s last days wrote David Remnick in the New Yorker filled with gaudy historical riches Each an acclaimed author in his own right Beschloss and Talbott together deliver journalism at its best an intimate and utterly absorbing record of this critical meeting of minds The New York Times *Winning and Losing the Nuclear Peace* Michael Krepon, 2021-10-19 The definitive guide to the history of nuclear arms control by a wise eavesdropper and masterful storyteller Michael Krepon The greatest unacknowledged diplomatic achievement of the Cold War was the absence of mushroom clouds Deterrence alone was too dangerous to succeed it needed arms control to prevent nuclear warfare So U S and Soviet leaders ventured into the unknown to devise guardrails for nuclear arms control and to treat the Bomb differently than other weapons Against the odds they succeeded Nuclear weapons have not been used in warfare for three quarters of a century This book is the first in depth history of how the nuclear peace was won by complementing deterrence with reassurance and then jeopardized by discarding arms control after the Cold War ended *Winning and Losing the Nuclear Peace* tells a remarkable story of high wire acts of diplomacy close calls dogged persistence and extraordinary success Michael Krepon brings to life the pitched battles between arms controllers and advocates of nuclear deterrence the ironic twists and unexpected outcomes from Truman to Trump What began with a ban on atmospheric testing and a nonproliferation treaty reached its apogee with treaties that mandated deep cuts and corralled loose nukes after the Soviet Union imploded After the Cold War ended much of this diplomatic accomplishment was cast aside in favor of freedom of action The nuclear peace is now imperiled by no less than four nuclear armed rivalries Arms control needs to be revived and reimagined for Russia and China to prevent nuclear warfare New guardrails have to be erected *Winning and Losing the Nuclear Peace* is an engaging account of how the practice of arms control was built from scratch how it was torn down and how it can be rebuilt **Airman** , 1988 *Current Policy* , 1986 **Current Policy** United States. Department of State. Bureau of Public Affairs, 1986 *The Nuclear and Space Negotiations* Paul H. Nitze, 1987 **Department of State Bulletin** , 1987 The official monthly record of United States foreign policy **Full Committee Consideration of H.R. 752,**
