Lloyd E. Eastman, 1991-08-30 In recent years historians of China have focused increased attention on the critical decades of National rule on the mainland This recent scholarship has substantially modified our understanding of the political events of this momentous period shedding light on the character of Nationalist rule and on the sources of the Communist victory in 1949 Yet no existing textbook on modern China presents the events of the period according to these new findings The five essays in this volume were written by leading authorities on the period and they synthesize the new research Drawn from Volume 13 of *The Cambridge History of China* they represent the most complete and stimulating political history of the period available in the literature The essays selected deal with Nationalist rule during the Nanking decade the Communist movement from 1927 to 1937 Nationalist rule during the Sino Japanese War the Communist movement during the Sino Japanese war and the Kuomintang Communist struggle from 1945 to 1949      *The Secret War for China* Panagiotis Dimitrakis, 2017-09-22 In 1927 Chiang Kai shek the head of China s military academy and leader of the Kuomintang KMT began the northern expeditions to bring China s northern territories back under the control of the state It was during this period that the KMT purged communist activities fractured the army and sparked the Chinese Civil War which would rage for over twenty years The communists led by General Mao Tse Tsung were for much of the period forced underground and concentrated in the Chinese countryside As the author argues this resulted in China s war featuring unusually high levels of espionage and sabotage and increased the military importance of information gathering Based on newly declassified material Panagiotis Dimitrakis charts the double crossings secret meetings and bloody assassinations which would come to define China s future Uniquely *The Secret War for China* gives equal weighting to the role of foreign actors the role of British intelligence in unmasking Communist International Comintern agents in China for example and the allies attempts to turn nationalist China against the Japanese *The Secret War for China* also documents the clandestine confrontation between Mao and Chiang and the secret negotiations between Chiang and the Axis Powers whose forces he employed against the CCP once the Second World War was over In his turn Mao employed nationalist forces who had defected during the last three years of the civil war about 105 out of 869 KMT generals defected to the CCP This book is an urgent and necessary guide to the intricacies of the Chinese Civil War a war which decisively shaped the modern Asian world      ***The Military-Industrial Complex and American Society*** S. **China between Peace and War** Victor Cheng, 2023-11-30 In *China between Peace and War* Victor S C Cheng explores the gripping history of peace talks and international negotiations from 1945 to 1947 that helped determine the shape of the Chinese Civil War The book focuses on the efforts of the two belligerent parties the Chinese Nationalists or Guomindang and the Communists to achieve an enduring peace It presents previously unexplored major elements of the peace talks ambiguous treaties package deals and short term solutions It identifies the burning challenges that confronted attempts at peacemaking including the two warring parties high risk decision making styles and the temptation to veto agreements and resume fighting Cheng argues against popular notions that differences between the two belligerents in the Chinese Civil War were irreconcilable that the failure of the peace talks was predetermined and that the US government mediators needed to remain neutral Because the actions around the negotiating table occurred in a developing theatre of war Cheng also explores the military decision making of the opposing sides as well as the conflicts that ultimately plunged China into the world's largest military engagement of the seven plus decades since World War II *China between Peace and War* highlights the contradictory role of political leaders who micromanaged the military including their struggle to connect political objectives and military power their rhetorical use of the decisive war concept and their pursuit of radical military political goals at the expense of a negotiated peace

**Accidental State** Hsiao-ting Lin, 2016-03-14 Defeated by Mao Zedong Chiang Kai shek's Nationalists fled to Taiwan to establish a rival state thereby creating the Two Chinas dilemma that vexes international diplomacy to this day Hsiao ting Lin challenges this conventional narrative showing the many ways the ad hoc creation of this not fully sovereign state was accidental and serendipitous

and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues cultural values pre existing stereotypes pressure groups and geopolitical aspirations
