Un-American Activities Gary May, 1994-06-09 In 1948 William W Remington was one of the bright young men in the Truman administration He was tall and handsome a product of Dartmouth and Columbia From 1940 on he had risen through government ranks serving on wartime boards the President s Council of Economic Advisors and eventually as a major official in the Department of Commerce with a promising future ahead By 1954 however Remington was dead assassinated in his cell by a team of inmates in a high security Federal prison In Un American Activities historian Gary May tells the fascinating story of William Remington a story of intrigue injustice government corruption and anti Communist hysteria May labored for eight years in reconstructing Remington s case searching through FBI files government documents and waging an epic battle against then U S Attorney Rudy Guiliani to become the first historian to obtain access to grand jury records The result is a brilliant account of one man s tragic odyssey and a government run amok Remington s future collapsed in 1948 when he was charged with being a Communist and a Soviet spy The accuser was Elizabeth Bentley an admitted ex Communist herself and a former courier for Soviet spymasters Remington s life fell into a whirlpool as he fought government improprieties illegalities and the assumption he was guilty Cleared by government loyalty boards he was indicted by a grand jury whose foreman was secretly helping Elizabeth Bentley prepare her memoirs Remington suffered through two trials for perjury and the chief witness against him was his own embittered ex wife He was convicted and sentenced to the federal penitentiary at Lewisburg Pennsylvania where his reputation as a Communist preceded him But May s account also offers fascinating insight

into the depth of Soviet penetration into wartime America As he follows Remington s life from the radical circles at Dartmouth and the Tennessee Valley Authority in the 1930s through his Washington career he finds that Remington may well have been guilty of the charges against him Gary May is one of the leading historians writing about postwar America His first book *China Scapegoat* won the Allan Nevins Prize and was hailed as as well as a novel as powerful as a good film by the *The Los Angeles Times* Here he brings his analytical and narrative skills to bear on one of the forgotten stories of the McCarthy era uncovering a gripping tale of espionage corruption and personal tragedy *Alpena* George F. Muggia,Marcel Rozencweig,2012-12-06 The methodology of drug development has been the subject of extensive dis cussion by a relatively small group of individuals in industry and government who have been intimately concerned with the identification and study of new anticancer drugs The Chemotherapy Program of the National Cancer In stitute has represented the major focus of initial efforts in drug development as summarized in the historical perspective presented in chapter 1 and its references It is no coincidence that the Chemotherapy Program was the origin of the Division of Cancer Treatment a government entity that has had a pivotal role in the growth of clinical oncology In an analogous fashion this book presents the methodology employed in the clinical study of anticancer drugs within the broad context of cancer treatment The research orientation promulgated in the study of new drugs is a central theme in most

oncologists approach to the clinical problem of cancer Therefore we hope that this book will introduce readers to treatment research in clinical oncology For the oncologist the clinical evaluation of antitumor therapy is both part of the day to day management of specific patients and the critical consideration of developing therapeutic alternatives For physicians in other fields of medicine it is important to acquaint themselves with the basic tools of the oncologist For people without medical training including patients who might be interested in treatment research many of the chapters may be overly technical
