Smith, 2005-08-01 In The Future of the Southern Plains scholars bring the region to the forefront by asking important questions about its past and suggesting prospects for its future The contributors some of them natives of the region bring to their work a blend of scholarship and personal experience They match intellectual sophistication with deep affection for a place defined primarily as western Texas Oklahoma and eastern New Mexico Within this volume is a story about America a story about limits and a story about challenging those limits Seven historians one geographer and a paleoclimatologist contribute a wealth of observation analysis and commentary on the environmental characteristics and history of the Southern Plains They address

such themes as failing communities scarce water endangered species and disappearing ways of life and the possible results of these developments not only in the Southern Plains but elsewhere on the globe Based on presentations at a symposium sponsored by the Clements Center for Southwest Studies at Southern Methodist University these essays treat the most important aspects of life on the Southern Plains today from climate politics and religion to business and environmental renewal Contributors and topics include Sherry L Smith Introduction Dan Flores Environmental destruction and preservation John Miller Morris Corporations and family farms Diana Davids Olien Oil production John Opie Water management Jeff Roche Political history Yolanda Romero Political history Elliott West Exploration Connie Woodhouse Droughts Joseph W. Byrns of Tennessee Ann B. Irish,2001 Through painstaking research in archives across the nation Ann Irish has produced an illuminating portrait of one of modern Tennessee s most significant but least appreciated public figures Carroll Van West Middle Tennessee State University A thoroughly researched and gracefully written account of the man who served as Speaker of the U S House of Representatives during the critically important Second New Deal period This book will be of interest to students of Tennessee political history as well as scholars of reform in the twentieth century United States Roger Biles East Carolina University During a congressional career that lasted nearly three decades Joseph W Byrns 1869 1936 exercised significant influence in Washington He served as chairman of both the Democratic Congressional Campaign Committee and the House Appropriations Committee before becoming Speaker of the House in 1935 In this first full length biography Ann B Irish explores Byrns s life and career detailing his achievements and assessing their impact After serving in the Tennessee General Assembly from 1895 to 1901 Byrns was elected to Congress in 1909 He was involved in tariff issues World War I expenditures economic development of impoverished areas and farm policy As a longtime senior Democrat on the Appropriations Committee he played a major role in creating the first budget system for the United States government Ever responsive to the needs of his constituents Byrns strove during the Depression years for two urgent but somewhat contradictory goals a balanced budget and relief for the needy In 1932 he was instrumental in defeating a proposed federal sales tax During Franklin D Roosevelt s first term Byrns was House Majority Leader for two years then Speaker As a moderate southern Democrat he privately questioned some of Roosevelt s programs but nevertheless embraced the New Deal out of party loyalty He introduced the bill creating the Civilian Conservation Corps and successfully maneuvered other major New Deal initiatives through Congress His sudden death in 1936 cut short his career at the very point when he was most influential Drawing on extensive and meticulous research Irish shows how Byrns s political skills as well his reputation for fairness and consideration helped propel him into the House leadership Her biography of this long neglected figure will prove a valuable addition to the political history of both Tennessee and the nation The Author A retired high school teacher and distant relative of Joseph Byrns Ann B Irish holds a doctorate in history from the University of Washington She lives on Vashon Island Washington **The West Texas Historical Association Year Book** West Texas Historical Association,1976

Poppendieck, 2014-04-26 At no time during the Great Depression was the contradiction between agriculture surplus and widespread hunger more wrenchingly graphic than in the government's attempt to raise pork prices through the mass slaughter of millions of unripe little pigs This contradiction was widely perceived as a paradox In fact as Janet Poppendieck makes clear in this newly expanded and updated volume it was a normal predictable working of an economic system rendered extreme by the Depression The notion of paradox however captured the imagination of the public and policy makers and it was to this definition of the problem that surplus commodities distribution programs in the Hoover and Roosevelt administrations were addressed This book explains in readable narrative how the New Deal food assistance effort originally conceived as a relief measure for poor people became a program designed to raise the incomes of commercial farmers In a broader sense the book explains how the New Deal years were formative for food assistance in subsequent administrations it also examines the performance or lack of performance of subsequent in kind relief programs Beginning with a brief survey of the history of the American farmer before the depression and the impact of the Depression on farmers the author describes the development of Hoover assistance programs and the events at the end of that administration that shaped the historical moment seized by the early New Deal Poppendieck goes on to analyze the food assistance policies and programs of the Roosevelt years the particular series of events that culminated in the decision to purchase surplus agriculture products and distribute them to the poor the institutionalization of this approach the results achieved and the interest groups formed The book also looks at the takeover of food assistance by the U S Department of Agriculture and its gradual adaptation for use as a tool in the maintenance of farm income Utilizing a wide variety of official and unofficial sources the author reveals with unusual clarity the evolution from a policy directly responsive to the poor to a policy serving mainly democratic needs      **Your Honor... Smith, 2024-02-29 What began as a genuine though radical effort to obtain justice became an exploration of hidden agendas where the more I probed the more I discovered that certain jurists had committed the most serious crime of Fraud on the Court against the judicial machinery in U S history By doing so their actions served to preclude me from obtaining justice

*Sacred Memories* Kelly McMichael, 2013-01-30 War memorials are symbols of a community's sense of itself the values it holds dear and its collective memory They inform us more perhaps about the period in which the memorials were erected than the period of the war itself Kelly McMichael in her book *Sacred Memories The Civil War Monument Movement in Texas* takes the reader on a tour of Civil War monuments throughout the state and in doing so tells the story of each monument and its creation McMichael explores Texans motivations for erecting Civil War memorials which she views as attempts during a period of turmoil and uncertainty severe depression social unrest the rise of Populism mass immigration urbanization industrialization imperialism lynching and Jim Crow laws to preserve the memory of the Confederate dead to instill in future

generations the values of patriotism duty and courage to create a shared memory and identity based on a largely invented story and to anchor a community against social and political doubt Her focus is the human story of each monument the characters involved in its creation and the sacred memories held dear to them **Gaining Access** John Mark

Hansen,1991-11 Through a comprehensive analysis of American agricultural politics in the past half century *Gaining Access* shows when how and why interest groups gain and lose influence in the policy deliberations of the United States Congress By consulting with policy advocates John Mark Hansen argues lawmakers offset their uncertainty about the policy stands that will bolster or impede their prospects for reelection The advocates provide legislators with electoral intelligence in Washington and supportive propaganda at home earning serious consideration of their policy views in return From among a multitude of such informants representatives must choose those they will most closely consult With evidence from congressional hearings personal interviews oral histories farm and trade journals and newspapers Hansen traces the evolution of farm lobby access in Congress He chronicles the rise and fall of the American Farm Bureau the surge and decline of party politics the incorporation of the commodity lobbies the exclusion of the consumer lobbies and the accommodation of urban interests in food stamps Brilliantly combining insights from rational choice theory with historical data *Gaining Access* is an essential guide for anyone interested in the dynamics of interest group influence *Bootstrap*

*Liberalism* Sean P. Cunningham,2002-04-21 Has Texas always been one of the United States most conservative states The answer might surprise you *Bootstrap Liberalism* offers a glimpse into the world of Depression era Texas politics revealing a partisan culture that was often far more ideologically nuanced and complex than meets the eye The Lone Star State is often viewed as a bastion of conservative politics and rugged bootstrap individualism but that narrative overlooks the fact that FDR s New Deal was quite popular in Texas much more so than previous histories of the era have suggested While it is true that many Texas Democrats remained staunchly conservative during Franklin D Roosevelt s presidency and it is also true that many of these conservatives formed the basis of an established majority that would grow stronger in the decades that followed it is simultaneously true that ordinary voters and a good many politicians embraced New Deal policies federal experimentation and direct economic aid and often did so enthusiastically as liberal Texas Democrats rode FDR s coattails to electoral success Texas political leaders recognized the popularity of the New Deal and identified themselves with FDR for their own political advantage Using original resources mined from six research archives *Bootstrap Liberalism* explores campaign strategies and policy debates as they unfolded at the local state and national levels throughout the Great Depression and World War II eras revealing a consistent brand of pro New Deal messaging that won favor with voters across the state Most Texas Democrats did not apologize for supporting FDR Rather they celebrated him and often marketed themselves as New Deal Democrats Voters endorsed that strategy by electing liberals throughout the 1930s and early 1940s
