William Lewis, 2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e g Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Khrushchev exposed Stalin's atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin's excesses were somehow encouraged or supported through Marx's thought When in the mid 1960s Louis Althusser first offered his re-readings of Marx's philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike Sartre at the end of his life did not abandon communism to for instance existentialism In *Louis Althusser and the Traditions of French Marxism* William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser's thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns

**Marxism versus Liberalism** August H. Nimtz, 2019-09-10 An extraordinary work of political historical analysis that methodically and convincingly argues for the superiority of a Marxist approach for pursuing democracy Rich in historical detail and thoroughly engrossing in portraying the real time analyses of and intervention in crucial events by prominent Marxist and liberal theorists and political actors *Marxism versus Liberalism* is a truly impressive achievement that will have an enduring appeal John F. Sitton Professor Emeritus Political Science Indiana University of Pennsylvania USA Performing a comparative real time political analysis *Marxism versus Liberalism* presents convincing evidence to sustain two similarly audacious claims firstly that Karl Marx and Frederick Engels collectively had better democratic credentials than Alexis de Tocqueville and John Stuart Mill and secondly that Vladimir Lenin had better democratic credentials than Max Weber and Woodrow Wilson When the two sets of protagonists are compared and contrasted in how they read and responded to big political events in motion this book contends that these Marxists proved to be better democrats than the history's most prominent Liberals Exploring the historical scenarios of The European Spring of 1848 the United States Civil War the 1905 Russian Revolution the 1917

Russian Revolution and the end of World War I Marxism versus Liberalism carefully tests each claim in order to challenge assumed political wisdom      **Encyclopaedia of Marxism and Education** ,2022-02-14 This encyclopaedia showcases the explanatory power of Marxist educational theory and practice The entries have been written by 51 leading authors from across the globe The 39 entries cover an impressive range of contemporary issues and historical problematics The editor has designed the book to appeal to readers within the Marxism and education intellectual tradition and also those who are curious newcomers as well as critics of Marxism The Encyclopaedia of Marxism and Education is the first of its kind It is a landmark text with relevance for years to come for the productive dialogue between Marxism and education for transformational thinking and practice      *1974 Annual Supplement* Joan Schmitz Bergholt,2013-12-21

Nimtz,2000-03-18 Presents the first major study of Marx and Engels in two decades and the only study since the collapse of the Soviet Union and the recognized crisis of global capitalism      **The Use of Mao and the Chongqing Model** Joseph Y.S. CHENG,2015-07-10 MAO Zedong was a Chinese communist leader and founder of the People's Republic of China He developed his own ideology and methodology known as Maoism or Mao Zedong Thought and his thought has a great influence in China or even overseas This book aims at bringing together a group of scholars to address the uses of Mao in China PRC today with special reference to the Bo Xilai case It also provides insights and detail on how and what we know about modern China Contributing authors including a number of French scholars illustrate how Maoism influences and engages in government business sector or social life This timely volume will be of considerable interest to scholars journalists and those keen to better understand the changing values in China today      **Modern Chinese Religion II: 1850 - 2015 (2 vols.)** ,2015-10-20 The last of four two volume sets on the key periods of paradigm shift in Chinese religious and cultural history this book examines the transformation of values in China since 1850 in the secular realms of economics science medicine aesthetics media and gender and in each of the major religions Confucianism Buddhism Daoism Christianity as well as in Marxist discourse The nation and science are the values invoked most frequently with the market and democracy a distant second As in previous periods of fundamental change in Chinese history rationalization and secularization have played central roles but interiorization nearly disappears as a driving force Also in continuity with the past the state insists

endemic As peasants fled the collectivized villages major cities soon faced an acute housing crisis whole families were jammed for decades into tiny single rooms in communal apartments It was a world of privation overcrowding endless lines and broken homes in which the regime s promises of future socialist abundance rang hollowly We read of a government bureaucracy that often turned life into a nightmare and of the ways ordinary citizens tried to circumvent it We also read of the secret police whose constant surveillance was endemic to this society and the waves of terror like the Great Purges of 1937 which periodically cast this society into turmoil Drawing on extensive research in Soviet archives only recently opened to historians Everyday Stalinism is a true and compelling story about ordinary people trying to live normal lives under extraordinary circumstances *The Encyclopaedia Britannica* James Louis Garvin, Franklin Henry Hooper, Warren E.

Cox, 1929 *Translations on People's Republic of China*, 1967 Why Marxism? Robert G. Wesson, 1976 **Truth and Revolution in Marx's Critique of Society** Matthias Bohlender, Anna-Sophie Schönfelder, Matthias Spekker, 2023-01-31 This book deals with a central aspect of Marx s critique of society that is usually not examined further since it is taken as a matter of course its scientific claim of being true But what concept of truth underlies his way of reasoning which attempts to comprehend the social and political circumstances in terms of the possibility of their practical upheaval In three studies focusing specifically on the development of Marx s scientific critique of capitalist society his journalistic commentaries on European politics and his reflections on the organisation of revolutionary subjectivity the authors carve out the immanent relation between the scientifically substantiated claim to truth and the revolutionary perspective in Marx s writings They argue that Marx does not grasp the world as it is but conceives it as an inverted state which cannot remain what it is but generates the means by which it can eventually be overcome This is not something to be taken lightly Such a concept has theoretical political and even violent consequences consequences that nevertheless derive neither from a subjective error nor a contamination of an otherwise pure science By analyzing Marx s concept of truth the authors also attempt to shed light on a pivotal problematique of any modern critique of society that raises a reasoned claim of being true *Marx, Tocqueville, and Race in America* August H. Nimtz Jr., 2003-09-29 While Alexis de Tocqueville described America as the absolute democracy Karl Marx saw the nation as a defiled republic so long as it permitted the enslavement of blacks In this insightful political history Nimtz argues that Marx and his partner Frederick Engels had a far more acute and insightful reading of American democracy than Tocqueville because they recognized that the overthrow of slavery and the cessation of racial oppression were central to its realization Nimtz s account contrasts both the writings and the civil action of Tocqueville Marx and Engels noting that Marx and Engels actively mobilized the German American community in opposition to the slavocracy prior to the Civil War and that Marx heavily supported the Union cause This potent and insightful investigation into the approaches of two major thinkers provides fresh insight into past and present debates about race and democracy in America
