Current and Future Challenges for Asian Nonproliferation Export Controls: A Regional Response , Current and Future Challenges for Asian

Nonproliferation Export Controls Scott Allan Jones, 2004 As Asia develops into a clearly demarcated economic region it is

confronted by similar export control challenges as those faced in Europe with the advent of the Common Market. As such a regional system of export control standards and practices emerged as a means to ensure not only economic parity but regional and international security as well. While not necessarily as advanced in terms of regional identity as the European free trade area, the states of Asia could benefit profitably from a regional approach to export control development and coordination. In addition, the states of Asia could also gain from increased export control cooperation with the United States. As a global leader in nonproliferation, the United States can provide critical assistance to export control development efforts through training and the allocation of other resources. Likewise, the United States should focus its export control outreach efforts to the less developed export control systems in Asia, especially the transshipment countries. **EU Development**

Policy and Poverty Reduction Dr. Wil Hout, 2013-03-28. This inspiring collection analyzes the contribution of EU development policy to poverty reduction. It focuses on various aspects of the policy: trade, agriculture, and food security, and modes of policy making and implementation, and covers three geographical areas in relation to Europe, Latin America, Asia, and Africa, Middle East. The volume concludes with practical recommendations for improving EU development policy with a view to enhancing its effectiveness. *Neoliberalism, Civil Society and Security in Africa* P. Carmody, 2007-10-17. Free market policies have been in operation across Africa for the past 25 years, yet they have failed to reverse deepening poverty. This book explores, with case studies, why such policies continue to be implemented and the ways in which they have been reinvented by socialization, depoliticization, regionalization, and securitization. The Obligation of Empire James J. Hentz, 2021-12-14. Some of the nation's most respected scholars of international affairs examine the debates over U.S. grand strategy in light of U.S. security policies and interests in tactical regions around the world. The contributors begin by describing the four grand strategies currently competing for dominance of U.S. foreign policy: neo-isolationism argues that the United States should not become involved in conflicts outside specifically defined national interests; selective engagement proposes that the United States, despite its position as the world's only remaining superpower, should limit its involvement in foreign affairs; cooperative security advocates that the United States is not and should not act as an imperial country; primacy asserts that the United States is an empire and therefore it should conduct an expansive foreign policy. Focusing on regions that present new challenges to U.S. grand strategy, such as Sub-Saharan Africa, the Middle East, and Latin America, the contributors offer the most current examinations of U.S. policies and assess the effectiveness of competing strategies in each region. The Obligation of Empire offers an innovative set of foreign policy initiatives that explore the tensions between global agendas and regionalist approaches. Contributors: Andrew J. Bacevich, Doug Bandow, Dale Davis, Thomas Donnelly, James J. Hentz, Clifford Kiracofe, Charles Kupchan, Jeffrey Stark, S. Frederick Starr, and Brantley Womack. James J. Hentz, associate professor of international studies at the Virginia Military Institute, is the co-editor of *New and Critical Security and Regionalism Beyond the Nation State*. **Understanding Boko Haram** James J. Hentz, Hussein Solomon, 2017-05-08. The

primary objective of this book is to understand the nature of the Boko Haram insurgency in northeast Nigeria. Boko Haram's goal of an Islamic Caliphate starting in the Borno State in the North East that will eventually cover the areas of the former Kanem Borno Empire is a rejection of the modern state system forced on it by the West. The central theme of this volume examines the relationship between the failure of the state building project in Nigeria and the outbreak and nature of insurgency. At the heart of the Boko Haram phenomenon is a country racked with cleavages making it hard for Nigeria to cohere as a modern state. Part I introduces this theme and places the Boko Haram insurgency in a historical context. There are however multiple cleavages in Nigeria: ethnic, regional, cultural, and religious. Part II examines the different state-society dynamics fuelling the conflict. Political grievances are common to every society; however, what gives Boko Haram the space to express such grievances through violence? Importantly, this volume demonstrates that the insurgency is in fact a reflection of the hollowness within Nigeria's overall security. Part III looks at the responses to Boko Haram by Nigeria, neighbouring states, and external actors. For Western actors, Boko Haram is seen as part of the global war on terror, and the fact that it has pledged allegiance to ISIS encourages this framing. However, as the chapters here discuss, this is an oversimplification of Boko Haram, and the West needs to address the multiple dimensions of Boko Haram. This book will be of much interest to students of terrorism and political violence, insurgencies, African politics, war and conflict studies, and IR in general.

Challenges to Global Security Hussein Solomon, 2007-10-24. Ours is an age of great upheaval where change sometimes appears to be the only constant. Three of the most important forces driving such change are globalization, regionalization, and democratization. This substantial work makes a concerted attempt to understand these forces and to show how they impact on the vitally important question of global security. The volume brings together a wide range of scholars who hold diverse views and who collectively make a very significant contribution to current discourses within international relations and contemporary geopolitics. Such is the book's breadth that it covers every region of the world, addressing in turn security problems in the USA, Latin America, South Asia, South East Asia, Europe, Russia, and environs, the Middle East, and Africa. Each discourse receives substantial coverage from economics and politics to religion, religious fundamentalism, and human rights. Challenges to Global Security offers one of the richest comparative volumes yet to be published on the subject and will have strong appeal to students, scholars, and policymakers in the fields of international relations, ethics, and politics.
