 effect been more profound than in the area of collection development Many of the materials law libraries traditionally
 collected in print form are now available in electronic format Digital technology has affected the way we select order and
 process legal materials The World Wide Web has created an explosion of both commercial and private online publishing The
 cost of electronic publishing has caused many traditional law book publishers to sell their companies rather than invest in the
 needed technologies to compete in the 21st century Small publishers and book jobbers have been forced to reinvent
 themselves The amount of legal information available and its costs continue to soar Law Library Collection Development in
 the Digital Age deals with these and other issues related to law library collection development Chapters range from the
 theoretical to the practical Inspired by Penny Hazleton's seminal paper How Much of Your Print Collection is Really on Lexis
 or Westlaw the editors and chapter authors of Law Library Collection Development in the Digital Age endeavor to expand on
