Reducing Firearm Injury And Death A Public Health Sourcebook On Guns:

Reducing Firearm Injury and Death Trudy Ann Karlson, Stephen W. Hargarten, 1997 Two experts in public health and injury control show readers how guns are products designed to injure and kill and how changes in the design technology and marketing of firearms can lead to reductions in the number of injuries and fatalities **Handbook of Injury and Violence Prevention** Lynda Doll, E. N. Haas, Sandra Bonzo, David Sleet, James Mercy, 2007-03-20 Injuries kill and maim millions each year and seriously impact the lives of countless loved ones Yet until recently they have been considered a random normal part of life Preventing injuries on the other hand requires not only effective communication with the public but also a reliable framework for creating and evaluating suitable interventions The Handbook of Injury and Violence Prevention is the first book to address both halves of this challenge reviewing evidence based intervention programs in depth so professionals can identify successful promising and ineffective and potentially harmful prevention strategies Over fifty experts present the current landscape of intervention methods from risk reduction to rethinking social norms as they address some of the most prevalent forms of accidental and violent injury as well as emerging areas Overview chapters examine the social and economic scope of unintentional and violent injury today Extensive literature review of specific intervention programs to prevent violence and injury Special chapters on childhood injuries alcohol related accidents and disasters Interventions in the Field section offers solid guidelines for implementing and improving existing programs Critical analysis of issues involved in delivering programs to wider audiences Helpful appendices list relevant agencies and professional resources This dual focus on intervention and application makes the Handbook a bedrock text for professionals involved in delivering or managing prevention programs Its what works now approach gives it particular utility in the graduate classroom and researchers will benefit from the critical attention paid to knowledge gaps in the field It is a major resource for any reader committed to reducing the number of incidents just waiting to happen Private Guns, Public Health, New Ed. David

Hemenway, 2017-08-07 A new edition of a classic the first complete picture of the public health approach to gun violence

Reducing the Burden of Injury Committee on Injury Prevention and Control, Institute of Medicine, 1999-01-04 Injuries are the leading cause of death and disability among people under age 35 in the United States Despite great strides in injury prevention over the decades injuries result in 150 000 deaths 26 million hospitalizations and 36 million visits to the emergency room each year Reducing the Burden of Injury describes the cost and magnitude of the injury problem in America and looks critically at the current response by the public and private sectors including Data and surveillance needs Research priorities Trauma care systems development Infrastructure support including training for injury professionals Firearm safety Coordination among federal agencies The authors define the field of injury and establish boundaries for the field regarding intentional injuries This book highlights the crosscutting nature of the injury field identifies opportunities to leverage resources and expertise of the numerous parties involved and discusses issues regarding leadership at the federal level

Gun Culture or Gun Control? Peter Squires, 2012-12-06 In 1996 the shooting and killing of 16 young children in a
Dunblane primary school provoked wide reaching parliamentary reform to British gun laws Within months virtually all
privately owned handguns had been outlawed Gun Culture or Gun Control presents the first substantial analysis of the social
and political reactions to events in Dunblane and also examines many of the wider issues relating to gun control in the United
Kingdom Rigorously comparative throughout Peter Squires provides a non partisan exploration of the differences between
attitudes to firearms and their control in Britain and in the United States Amongst the topics the author considers are the
social history of firearms on both sides of the atlantic the differing policy directions adopted in Britain and the USA media
coverage of the gun question firearms and policing the future of the gun in society *Encyclopedia of Law and Society*
David S. Clark, 2007-07-10 Introduction to and survey of the field of law and society Includes interdisciplinary perspectives on
law from sociology criminology cultural anthropology political science social psychology and economics *Injury*
Epidemiology Leon Robertson, 2007-07-03 Using a progressive step by step analysis Injury Epidemiology illustrates how to
pose research questions and design the best research studies to answer those questions This new edition will update all
chapters and include new examples of studies The chapters will also be organized into more precise topic areas for ease of
reference Social Epidemiology Julie Cwikel, 2006 By tracking the distribution of disease and pinpointing relevant risk
factors social epidemiology reveals how social problems are intrinsically linked to the health of populations The practice also
takes into account the psychosocial biological and medical determinants of disease and health encouraging a rich and
multidisciplinary approach to analyzing and solving complex contemporary social issues This book provides a clear and
comprehensive set of tools for practice Julie Cwikel begins with an overview of the historical roots of public health and social
medicine and shows how they formed the theoretical basis for current social epidemiological methods Cwikel then explains
the theoretical and programmatic tools social epidemiologists use in their research program planning and evaluation In
conclusion Cwikel demonstrates how the SOCEPID model can be applied to a range of topics including chronic illness obesity
violence prevention occupational health sexually transmitted diseases especially HIV environmental hazards and addressing
the needs of vulnerable populations such as immigrants and trafficked women With compelling authority Cwikel shows

readers how the exciting and growing field of social epidemiology is both practical and activist drawing on cutting edge empirical findings to conduct policymaking research and promote health at both the personal and population levels

Regulation through Litigation Kip W. Viscusi, 2004-05-13 Recent high profile lawsuits involving cigarettes guns breast implants and other products have created new frictions between litigation and regulation Increasingly litigation is being used as a financial lever to force companies to accept negotiated regulatory policies policies that invariably involve less public input and accountability than those arising from government regulation The process not only usurps the traditional governmental authority for regulation but also shifts the locus of establishing tax policy from the legislature to the parties involved in the litigation Citizen interests are not explicitly represented and there is no mechanism to ensure that these outcomes are in society s best interests By focusing on case studies involving the tobacco industry guns lead paint breast implants and health maintenance organizations the contributors to this volume collectively shed light on the likely consequences of regulation through litigation for insurance markets and society at large They analyze the ramifications of large scale lawsuits mass torts and class actions for the insurance market and advocate increased public scrutiny of attorney reimbursement and a competitive bidding process for all lawsuits involving government entities as the plaintiffs

Regulation vs. Litigation Daniel P. Kessler, 2010-12-20 The efficacy of various political institutions is the subject of intense debate between proponents of broad legislative standards enforced through litigation and those who prefer regulation by administrative agencies This book explores the trade offs between litigation and regulation the circumstances in which one approach may outperform the other and the principles that affect the choice between addressing particular economic activities with one system or the other Combining theoretical analysis with empirical investigation in a range of industries including public health financial markets medical care and workplace safety Regulation versus Litigation sheds light on the costs and benefits of two important instruments of economic policy

Fourth edition Leon S. Robertson, Ph.D.,2015 Research on injuries is a high priority to inform public policy that reduces deaths hospitalizations and associated costs Principles for research design and analysis of injury incidence and severity are emphasized Review of extant surveillance data reveals numerous flaws that must be changed to increase usefulness of the data Research designs of studies of injury causation and evaluation of countermeasures are often inappropriate and mislead analytic and injury control efforts Appendices to chapters illustrate research projects that influenced public policy affecting the reduction of motor vehicle fatalities per population by half in the U S The principles illustrated by these studies can be applied to other types of injury

Gangs Jacqueline Schneider,2017-11-30 The task of researching gangs is fraught with difficulties central to which are issues of definition and reliance on certain forms of data for analyses These methodological issues have been acknowledged as limitations in most of the existing research but they have not been explored as being potentially serious flaws contributing to the proliferation of myth or as aggravating factors that exacerbate what is essentially a relatively uncomplicated social process Also unclear from existing studies is the extent to which suppositions about gangs feed moral panics or contribute to the misidentification or over specification of a problem This captivating volume focuses on gangs their formation identity and behaviour with a view to developing a preventive strategy

Homicide M. Dwayne Smith,Margaret A. Zahn,1999 A set of chapters prepared by leading figures currently engaged in the study of homicide Each chapter provides a review and summary of research literatures that deal with social theories of homicide methodological problems in the study of homicide research among specific groups and public policy reactions designed to prevent homicide
