Reduction Of School Violence:

Reducing School Violence Through Conflict Resolution David W. Johnson, Roger T. Johnson, 1995 In this book David and Roger Johnson offer an approach that involves interrelated programs for preventing violence and helping students learn to resolve conflicts constructively The authors discuss how schools can create a cooperative learning environment where students learn how to negotiate and mediate peer conflicts and teachers use academic controversies to enhance learning

Reduction of School Violence Beverley Holden Johns, 1997 **Reducing School Shootings** William H. Jeynes, 2021-02-01 This book calls for a multidimensional and comprehensive approach to reduce the number of school shootings rather than the simplistic unidimensional strategy that is commonly advocated Based on meta analyses examining which variables are most often related to positive changes in violent student behavior it also integrates other research and historical trends in order to formulate recommendations regarding how to reduce school shootings The topic of school shootings is one of the most vital issues in society today because 1 schools should be the safest places on Earth for children 2 if students do not feel safe they are not going to learn very well in school and 3 it is of such great concern to parents and society at large as evinced by the degree of news coverage that school shooting incidents receive Sadly despite the gravity of the problem many people tend to either respond in an emotional way or propose simplistic solutions Gun control legislation alone will not solve the problem instead it calls for a multi disciplinary and multifaceted approach involving parents teachers schools and healthcare This book investigates the status quo goals and solutions pursuing a fact based approach This book is of special interest to the academic community national leaders and other policymakers It is also suitable for courses on education psychology sociology criminal justice and other areas of law It will also appeal to the general audience *Critical Examinations of School Violence and Disturbance in K-12 Education* Crews, Gordon A., 2016-02-02 In recent years a rise in incidents of juvenile delinquency and violence in American schools has led to increasing concern among school administrators students parents and the general public The frequency of these cases calls into question issues of safety risk factors and prevention strategies within the modern school system *Critical Examinations of School Violence and Disturbance in K 12 Education* is an authoritative reference source for the latest research on youth violence in schools offering a thorough analysis of contributing factors to such incidents and possible solutions to prevent future occurrences Highlighting relevant issues on zero tolerance policies historical perspectives and preventive actions this book is ideally designed for school administrators law enforcement teachers and researchers actively working in educational environments *Interventions to Reduce Bullying and Cyberbullying* Peter K. Smith, Sheri Bauman, Dennis Wong, 2019-08-02 This book is a printed edition of the Special Issue *Interventions to Reduce Bullying and Cyberbullying* that was published in IJERPH *Children at Risk* Arthur V. Carrington, 2002 There was a day when society shielded its children from the often cruel world At least in the so called developed countries the exposure of children to the worst perversions society can conjure up has never been greater

Children have reached the exalted level of being treated seduced and targeted to as a market This bibliography brings together the literature providing access by subject groupings as well as author and title indexes Planning Assistance Programs to Reduce School Violence and Disruption Research for Better Schools, inc,1976 *A New Model of School Discipline* David R. Dupper,2010-03-25 Mounting evidence shows that zero tolerance policies suspensions and restrictive security policies fail to improve school safety and student behaviors and are linked with increased risk of dropping out Minority students are suspended at disproportionate rates and over a million cases of corporal punishment are reported each year Against this dismal backdrop David Dupper presents a transformative new model of school discipline that is preventive proactive and relationship based Unlike traditional punitive and exclusionary practices the model developed in this Workshop volume focuses on enhancing students connection to school through building relationships and bolstering social skills Drawing on the latest research about what works and what doesn t this highly practical guide catalogs an array of proven and promising practices designed to engage instead of exclude students Rather than illustrate a one size fits all approach it guides practitioners and administrators in identifying their school s unique needs and selecting appropriate strategies for use at the universal targeted and remedial levels A five step strategic planning model helps schools transition toward a holistic relationship based approach to discipline Boxes bullets evidence summaries and practice tips make this an accessible forward thinking resource for school personnel seeking to engage students and reduce behavior problems in the most effective pragmatic and cost efficient manner possible *School Violence in Context* Rami Benbenishty,Ron Avi Astor,2005-02-10 Drawing on one of the most comprehensive and representative studies of school violence ever conducted Benbenishty and Astor explore and differentiate the many manifestations of victimization in schools providing a new model for understanding school violence in context The authors make striking use of the geopolitical climate of the Middle East to model school violence in terms of its context within as well as outside of the school site This pioneering new work is unique in that it uses empirical data to show which variables and factors are similar across different cultures and which variables appear unique to different cultures This empirical contrast of universal with culturally specific patterns is sorely needed in the school violence literature The authors innovative research maps the contours of verbal social physical and sexual victimization and weapons possession as well as staff initiated violence against students presenting some startling findings along the way When comparing schools in Israel with schools in California the authors demonstrate for the first time that for most violent events the patterns of violent behaviors have the same relationship for different age groups genders and nations Conversely they highlight specific kinds of violence that are strongly influenced by culture They reveal for example how Arab boys encounter much more boy to boy sexual harassment than their Jewish peers and that teacher initiated victimization of students constitutes a significant and often overlooked type of school violence especially among certain cultural groups Crucially the authors expand the paradigm of understanding school violence to encompass the intersection of cultural ethnic

neighborhood and family characteristics with intra school factors such as teacher student dynamics anti violence policies student participation grade level and religious and gender divisions It is only by understanding the multiple contexts of school violence they argue that truly effective prevention programs interventions research agendas and policies can be implemented In an age of heightened concern over school security this study has enormous implications for school violence theory research and policy throughout the world The patterns that emerge from the authors analysis form a blueprint for the research agenda needed to address new and exciting theoretical and practical questions regarding the intersections of context and school victimization The unique perspective on school violence will undoubtedly strike a chord with all readers informing scholars and students across the fields of social work psychology education sociology public health and peace conflict studies Its clearly written and accessible style will appeal to teachers principals policy makers and parents interested in the authors practical discussion of policy and intervention implications making this an invaluable tool for understanding preventing and handling violence in schools throughout the world

Violence Reduction in Schools-- how to Make a Difference Chris Gittins,2006-01-01 Most schools are safe places for children but that does not mean that members of a school community live and learn together in harmony at all time Violence towards children can take place in a variety of forms including physical and verbal abuse and bullying This is a practical handbook for schools to use when training staff in techniques for reducing violence In particular it addresses two issues how to establish and maintain a learning environment where violence is not tolerated and how to respond to violence when it occurs so that this environment is protected Each chapter covers a critical area for school policy describes the issues and proposes activities designed to be combined into a training programme to meet the specific needs of a group of staff This includes teachers and the growing number of support staff in European schools School leaders administrators and educationalists should find this guide a useful addition to the resources for reducing violence in schools available in their own country

Encyclopedia of School Psychology T. Stuart Watson,Christopher H. Skinner,2012-12-06 School psychologists are on the front lines in dealing with the most significant challenges facing children and the educational community today And in a world of ever increasing risks and obstacles for students school psychologists must be able to use their in depth psychological and educational training to work effectively with students parents teachers administrators and other mental health professionals to help create safe learning environments By recognizing each individual student s unique circumstances and personality school psychologists are able to offer specialized services to address such crucial children s issues as family troubles e g divorce death school assignments depression anger management substance abuse study skills learning disabilities sexuality and self discipline The Encyclopedia of School Psychology provides school psychologists and other educational and mental health professionals with a thorough understanding of the most current theories research and practices in this critical area In addition the Encyclopedia offers the most up to date information on important issues from assessment to intervention to prevention

techniques *School Violence Prevention: Examining the Impact of Social Emotional Learning Programs* Jamie Taylor, 2020

Existing literature demonstrates that violence particularly youth violence can be prevented and as a result many prevention programs are employed in school settings Among the approaches to school violence prevention are zero tolerance policies These harsh policy measures increasingly prove unsuccessful in reducing school violence show negative impacts on school climate and are disproportionately applied to underrepresented minorities This growing evidence led many schools to explore other avenues of violence prevention through restorative practices and incorporating social emotional learning SEL into the curriculum However present literature specific to SEL programs tend to focus only on impacts on academic achievement and learning The present study will add to this growing literature on the impact of SEL programs by examining school violence and examining the extent to which schools use restorative practices as an alternative to exclusionary discipline practices This study uses school level data from the 2015 16 school year obtained from the US Department of Education National Center for Education Statistics School Survey on Crime and Safety Using a negative binomial regression this study examines the impact of several school violence prevention programs on the total number of violent and criminal incidents occurring at school Ordered logistic regression is then used to examine the sensitivity of the results to the measurement of the dependent variable Results from the study did not show significant reductions in school violence when social emotional learning programs were present however several takeaways are presented on exploring alternative strategies to reducing violence improving the school environment or meeting state or federal guidelines There is no one size fits all approach to reducing school violence especially since each school environment is different One key conclusion from this paper is that restorative practices and social emotional learning are under utilized and offer opportunities for decision makers to explore

friendly text that provides students with an overview of the causes and consequences of victimization and the responses to those causes. Renowned authors and researchers Leah E. Daigle and Lisa R. Muftic use a consistent framework throughout to help readers understand why people are victimized as well as how the criminal justice system and other social services interact with victims and each other. The focus on causes and responses equips students with the foundational knowledge needed to apply key concepts to real life situations. Emphasizing the impact of trauma on individuals and opportunities for prevention, this supportive text offers incisive discussions of recurring victimization and the victim/offender overlap with a global focus. The streamlined Second Edition explores emerging topics within this growing field, including immigration and victimization, bullying, homicides, and sexual assaults involving LGBTQ persons, school shootings, and more. Immigration and School Safety Anthony A. Peguero, Jennifer M. Bondy, 2021-03-22. Immigration and School Safety utilizes a multidisciplinary approach to expose the complex relationship between immigration and school safety in the United States. It addresses not only individual, intrapersonal, and environmental factors but also distant level conditions that are relevant to the experiences of immigrant children and connected to school safety. Twenty-five percent of all youth in U.S. schools have at least one immigrant parent, and that percentage is expected to increase to 33 percent by 2040. A wide array of factors, including but not limited to laws, public and political discourses, educational policies, interpersonal relationships, socioeconomic status, English language proficiency, citizenship, legal status, family characteristics, race, and ethnicity, generational status, nationality, religion, and gender, contribute to the marginalizing experiences of children of immigrants at school. With the rapid growth of students in immigrant families in U.S. schools, any effort to address school violence and implement school safety policies must consider barriers associated with the unique educational experiences of that segment. This book highlights the often overlooked importance of immigration as a mediating factor in explaining both violence and victimization and provides a blueprint for integrating immigration and criminology theories into evidence-based efforts toward ensuring safety for all students. The authors demonstrate that immigration matters significantly in school violence and safety concerns and illustrate why research that integrates immigration with criminology theories is needed to understand the causes and correlates of school violence. The book will appeal to a wide array of individuals, including academics, educators, policymakers, practitioners, social workers, parents, and stakeholders who are committed to addressing educational disparities and inequities associated with immigration and school safety. **The Oxford Handbook of U.S. Education Law** Kristi L. Bowman, 2021. The Oxford Handbook of U.S. Education Law includes more than three dozen chapters by leading education law and policy scholars. It presents a comprehensive description of the law that regulates public K-12 education today and suggests legal and policy changes for the next decade. Chapters cover a wide variety of topics, including virtual schooling, civil rights, student privacy and safety, education federalism, school choice, and special education. The Handbook is an essential guide for anyone interested in the law and policy that shapes K-12 education in the United States. The Global

Victimization of Children Clayton A. Hartjen, S. Priyadarsini, 2012-01-12 This book describes the concept of child victimization in all its facets Millions of young people throughout the world face violence sexual physical and emotional abuse and exploitation on a daily basis The worldwide victimization of young people can be prevented or at least its incidence can be greatly reduced if purposeful action is taken to do so This volume researches and documents some of the ways in which young people throughout the world are victimized and suggests strategies for preventing various forms of child victimization Eight distinct forms of victimization are identified and analyzed in detail Included are discussions on child prostitution and pornography economic exploitation through child labor and trafficking physical and other abuse inflicted on young people in schools and other institutions the use of children as armed combatants and the denial of the basic needs and rights of children to such things as home and to education In each chapter the authors discuss the nature of the victimization its global dimensions and prevalence and the measures governments and or others are taking or failing to take to combat the harm based on the concept that youth victimization is a form of government crime **Laws of the State of New York** New York (State),
