Bronzes from Spina Eric Hostetter, 1986 Italien R merzeit Typologie Gef sse      Caere Nancy Thompson de Grummond, Lisa Pieraccini, 2016-08-09 The Etruscan city of Caere and eleven other Etruscan city states were among the first urban centers in ancient Italy Roman descriptions of Etruscan cities highlight their wealth beauty and formidable defenses Although Caere left little written historical record outside of funerary inscriptions its complex story can be deciphered by analyzing surviving material culture including architecture tomb paintings temples sanctuaries and materials such as terracotta bronze gold and amber found in Etruscan crafts Studying Caere provides valuable insight not only into Etruscan history and culture but more broadly into urbanism and the development of urban centers across ancient Italy Comprehensive in scope Caere is the first English language book dedicated to the study of its eponymous city Collecting the work of an international team of scholars it features chapters on a wide range of topics such as Caere s formation and history economy foreign relations trade networks art funerary traditions built environment religion daily life and rediscovery Extensively illustrated throughout Caere presents new perspectives on and analysis of not just Etruscan civilization but also the city s role in the wider pan Mediterranean basin      **Etruscan Life and Afterlife** Larissa Bonfante, 1986 The lively ferment in Etruscan studies generated in part by recent archaeological discoveries and fostered by new trends in interpretation has produced a wealth of information about the people historians traditionally considered as inaccessible Now scholars are reconstructing a portrait of the wealthy sophisticated Etruscans whose territory once extended from the Po River to the Bay of Naples Unfortunately the wider English speaking public has had no single resource which synthesizes these new findings and interpretations about the Etruscans In fact some sources continue to propagate the traditional myth

of the enigmatic and isolated Etruscans In response the eminent Etruscan scholar Larissa Bonfante asked seven other internationally known classicists to join her in providing this handbook for the non specialist as an authoritative and readable guide to the burgeoning Etruscan scholarship As Bonfante explains in the introductory chapter The Etruscans provide an excellent opportunity of turning archaeology into history this we tried to do in our chapters according to our individual directions Nancy Thomson de Grummond traces the interest in and knowledge of the Etruscans from the earliest days Mario Torelli provides an independent account of Etruscan history based on monuments and sources Jean MacIntosh Turfa belies the cliché of the Etruscans traditional isolation by surveying the material evidence for their trade with the Phoenicians Greeks and other neighbors in the Mediterranean Marie Fran oise Brigueat Friedhelm Prayon David Tripp and I survey Etruscan art architecture coinage and daily lives respectively Emeline Richardson contributes what she calls a primer in the Etruscan language a basic archaeological introduction to the Etruscan language meant to help newcomers read the inscriptions on many of the monuments illustrated and to see these with the interdisciplinary approach so characteristic of and necessary in Etruscan studies The book is profusely illustrated with over 300 photos and maps Notes and bibliographic references lead to standard texts on the Etruscans and to the more specialized literature in the field The result is a reliable and lively volume which brings readers into the mainstream of the latest Etruscan scholarship **Etruscan Tomb-groups**
