Knysh, 2024-09-30 *Islam in Historical Perspective* is a general introduction to Islam and the history of Muslim societies. Richly illustrated by quotations and images from Muslim scripture, historical chronicles, artistic works, and theological and juridical treatises, it invites the reader to examine this evidence and to form a comprehensive understanding of Islam's evolution from its inception in Arabia to the present day. Combining chronological and thematic principles, this book examines Muslims' political and intellectual struggles over the meaning and practical implications of their faith. Treating Islam as a language that various factions and generations of Muslims have used to express their grievances, aspirations, and personal experiences and preferences, the book shows the religion's remarkable potency as a social, political, and cultural force and source of identity. It also describes and analyses Muslim devotional practices, emotional responses to the revelation, artistic and intellectual creativity, and patterns of everyday existence. The goal of this book is to help the reader to develop personal empathy for the subject by showing the relevance of the dilemmas faced by Muslims in different epochs and geographical locations to the burning issues of today's world. A thorough analysis of pivotal events, trends, and personalities of Islamic history is accompanied by witness accounts showing how they were perceived by Muslims themselves. This new edition features a thoroughly revised text, updated bibliography, new illustrations, study questions, and chapter summaries, and is an outstanding resource for students of Islam and Muslim civilization.
